### Notes:
- Mod. Lang. refers to modern languages.
- Prof. Hollenb'k. refers to Professor Hollenbeck.
- Days refer to Monday through Friday.
- Hours range from 9 to 11.
- Professors' names are listed for each subject.
- Courses include Freshman (Fresh.), Sophomore (Soph.), Junior (Jun.), Senior (Sen.), and Elective (elect.).
REQUISITES FOR ADMISSION.

The requisites for admission to the Freshman class may be seen by consulting the Course of Study in the Preparatory Department, page 16.

For admission to the First Preparatory class, students must give satisfactory evidence of a respectable knowledge of Arithmetic, English Grammar, Modern Geography, including Physical Geography, and the History of the United States.

Candidates for advanced standing must give satisfactory evidence, by examination or otherwise, of proficiency in the studies already passed by the class they propose to enter.

EDUCATIONAL AUXILIARIES.

I. LECTURES.

(a) Week day lectures will be delivered in elucidation of subjects suggested by the text books.

(b) Lord's Day lectures will be delivered weekly, during the first and third terms of each session, by a member of the Faculty (or an acceptable substitute), on topics connected with the Christian religion, or related to human conduct. Every student is required to attend the lecture and one other religious service each Lord's Day.

II. RHETORICAL EXERCISES.

Practical Composition is taught by Miss Merrill to the close of the Freshman year, and Essays and Declamations will be required of all students during the other years, who are not members of one of the Literary Societies.

III. LITERARY SOCIETIES.

Four Literary Societies are now organized and in successful operation at the University. These are the Mathesian, Philo-
kurian, and Pythonian, composed of young gentlemen, and the Athenian, of young ladies.

All these societies are, by the by-laws of the University, placed under the supervision of the Faculty.

The Athenian receives the care and attention of Miss Merrill. These societies, properly conducted, are very important agencies in the social and literary culture of the students of the Institution. Well selected Libraries, accessible to the members of the societies, give important additional means of culture. Contributions to them will be thankfully received.

IV. COLLECTIONS IN NATURAL HISTORY.

The Cabinet of the University has been largely increased during the past year. It now consists of the following collections:

1. A very large collection of fossils, minerals, marine shells, etc., purchased of Mr. W. D. Frazee, of Santa Barbara, California. This, with a similar collection of fossils presented by Mr. Van Tuyl, of Ohio, affords a very complete illustration of the rocks and fossils of the different geological ages. The species found in this State are especially well represented.

2. A very large collection of the marine animals of the coast of Massachusetts, made by Prof. Jordan, at Cape Cod, during the past summer.

3. A collection of about 150 species of fishes preserved in alcohol, representing very completely the fish-fauna of the Ohio valley and the great Lake region.

4. A collection of about 400 species of land and fresh water shells, recently purchased of Mr. J. W. Byrkit, including most of the Unics of the Mississippi valley.

5. A collection of about 450 species of marine shells, chiefly from the Pacific Ocean, purchased of Mr. J. W. Byrkit.

6. A very complete collection of Indiana Lepidoptera, purchased of Mr. Byrkit, and of Wisconsin Coleoptera, deposited by Prof. Jordan.

8. A number of skins of birds and mammals, mostly duplicates from Prof. Jordan's collection.

10. A very considerable number of stone implements and other specimens illustrative of Ethnology.

It is hoped that the friends of this Institution will, whenever opportunity offers, forward specimens illustrative of any department of Natural History. Our native birds and mammals, especially the larger species, hawks, owls, eagles, etc., either dead or alive, are especially desirable. Fishes, reptiles and insects, preserved in alcohol, as well as minerals and fossils, are very welcome. Our friends traveling in different parts of the earth will please note this and remember us and our wants.

ORDER.

I. IN CHAPEL.

Each student, at the beginning of each term, will be assigned to a seat in the Chapel, which he will be expected to keep for the term. Perfect decorum, and entire abstinence from whispering, reading, and all overt demonstrations of approval or disapproval, will be required. Students will stand during singing and prayer.

II. CLASS ROOM.

Entire abstinence from intercommunication, and perfect quiet and attention to the recitation are here required.

III. COLLEGE BUILDING.

No student will be allowed to remain in the halls during recitation hours. At the ringing of each successive bell, the classes will be dismissed, and will proceed without delay to the room of the next recitation. Students not reciting will, unless expressly permitted to study elsewhere, be seated in one of the recitation rooms assigned for the purpose. Generally, they will be required to remain in the room where they recited last, until their next recitation.
IV. COLLEGE GROUNDS.

Students are not permitted to remain on the Campus, even for study, during recitation hours; and any loitering or playing in the Campus within that time will be considered highly disorderly.

V. GENERAL BEHAVIOR.

Courteous and respectful deportment from students to each other, and to the officers and Faculty of the Institution, a careful observance of by-laws as to character and conduct, will be a necessary condition of a continued connection with the University.

During recitation hours, the young ladies will be under the immediate care and control of the Lady Professor. It is believed that, with only the restrictions demanded by propriety, the association of the sexes in the collegiate career will greatly promote the social, moral, and intellectual culture of each.

COLLEGE EXAMINATIONS.

I. DAILY CLASS.

The daily examinations of lessons will be conducted according to the best judgment of the Professor in charge. Careful attention will be given in all cases to secure the use of correct words and sentences. The prime objects of the recitation will be to test the student’s preparation, and to develop his logical ability and capacity for expression.

II. TERM.

At the close of each term all the classes will be examined on the branches pursued during the term. These examinations will be entirely written, or partly written and partly oral, as the Faculty may determine. They will always be open for the attendance of visitors; the aim, however, will not be to make them a source of entertainment to visitors, but a rigid test of the student’s knowledge.
III. SENIOR.

The members of the Senior Class shall sustain an examination in the following branches: Practical Arithmetic, Descriptive Geography, English Grammar, United States History, and Orthography.

The Senior Class will be examined on the studies of the Senior Year, during or previous to the first week in June.

COLLEGE RECORDS.

I. MATRICULATION.

In the Matriculation Book of the University each student will record his name and age, and the name and postoffice address of his parent or guardian.

II. CHAPEL.

The college roll will be called every morning, and each Monday morning students will report their absences, if any, from church and lecture. Generally, only sickness will be regarded as a valid excuse.

III. DAILY.

In a Class Book, kept by each Professor, will be entered daily a record of the proficiency, deportment and attendance of each member of the class, from which his class-standing will be determined.

IV. TERM.

From his class-standing, and the result of his examinations at the close of each term, his final standing will be determined, which will be recorded on the University Record for future reference.

COLLEGE REPORTS.

During the last week of each term a report of the deportment, attendance and proficiency of each student will be prepared and sent to the parent or guardian.
DEGREES.

I. BACHELOR OF SCIENCE.

This degree will be conferred on students who have satisfactorily completed the studies embraced in the Scientific Course of the College of Literature.

II. BACHELOR OF ARTS.

In the same College will be conferred the degree of Bachelor of Arts upon completion of the Classical Course.

III. MASTER OF ARTS.

This degree will be conferred only upon such Bachelors of Arts as shall give to the Faculty satisfactory evidence of progress in liberal studies after having received their first degree. This evidence may consist, first, of a course of study under the direction of the Faculty, within one year after graduation; second, such Bachelors of Arts as do not choose to reside at the College for the prosecution of study, may, at any time not less than five years after graduation, show to the Faculty by their printed writings or by special examinations that they are worthy of this degree.

Graduates of other colleges, after a course of resident study and a satisfactory examination, may also be recommended for this degree.

HONORARY DEGREES.

This Institution will occasionally confer the degrees of A. M. and LL. D. upon persons who, to a fair scholarship, join a high character for energy and worth.

The above degrees will be conferred by the Board of Directors upon the recommendation of the Faculty of the College to which the candidate belongs. A fee of ten dollars must accompany the application for the degree, which will be returned if the degree be not conferred.
DIPLOMAS.

When a degree has been conferred, a diploma will be presented without further charge. Diplomas will also be granted upon satisfactory completion of the course in the Commercial Department.

TERMS OF COLLEGE YEAR 1876-7.

The college year or session is divided into three terms, as follows:

First Term, beginning on Wednesday, the 13th day of September, which will give fourteen weeks before Christmas.

Second, of twelve weeks, beginning the 3d of January, and ending on Friday, March 23d.

Third, of eleven weeks, beginning on Monday of the week following the close of the preceding term, and ending June 8th.

VACATION.

Vacation of one week will be given at the close of the first term.

FEES.

IN COLLEGE.

Matriculation fee, ........................... $10.00
Tuition, per year, in Scrip, .................... 6.00
Janitor's fee, per term, ...................... 2.00
Graduation fee, .............................. 10.00

IN PREPARATORY DEPARTMENT.

Tuition, per year, in Scrip, .................... 6.00
Janitor's fee, per term, ...................... 4.00

IN COMMERCIAL DEPARTMENT.

Grammar School Classes, per term, ............ 7.00
Book-keeping, per term, ...................... 10.00
FREE TUITION.

Tuition fees in this Institution are payable in Interest Scrip, which is issued to and belongs to stockholders. Stockholders having a supply of this scrip, offer to furnish it gratuitously to worthy students who, in good faith, propose to devote themselves to the work of the Christian ministry, and need help to enable them to complete their studies for that purpose. Such students may rely upon being furnished with scrip to pay their tuition fees. It will also be seen that tuition is practically free to all, the Board having fixed it at $6.00 a year in scrip. The scrip can be bought for 20 to 30 cents on the dollar. The cash fees remain the same in the Preparatory Department; but on entering the Freshman year, the student pays a fee of ten dollars, and then a janitor's fee of only two dollars per term.

BOARDING.

Board can be had in the best of private families for $4.00 to $5.00 per week. Students who "club" or rent rooms can live comfortably on one-half the above rates.

UNIVERSITY LIBRARY AND READING-ROOM.

The University Library is but in its infancy, but contains about 1200 volumes—many of them quite costly and rare—of the representative and, intrinsically, most valuable books in each of the great departments of literature and science. In science, only the latest and best have been chosen, the rapidly progressive character of many of the sciences having rendered many books valuable twenty-five years since now almost obsolete. In
literature, those authors whom the verdict of ages has indorsed are well represented. Students will find the best cyclopedias, lexicons and maps, as well as manuals of special sciences, on the shelves. The scientific books are many of them exhaustive, and fully sufficient for the demands of any special or post-graduate course.

THE READING-ROOM.

The best weeklies, monthlies and quarterlies of England, France and America come regularly to the table of the Reading-Room attached to the Library. These, together with the books of the Library, are daily (9 A. M. to 5 P. M., except Sundays and vacations) accessible, for reading and reference, to all the students of the Institution.

By the wise liberality of the Board a yearly appropriation, for furnishing the Library with exhaustive works of reference in the various branches taught in the University, will be made.
TO THE ALUMNI OF THE

NORTH WESTERN CHRISTIAN UNIVERSITY

AND THEIR RELATIVES AND FRIENDS.

It is desirable to preserve biographical statistics of each graduate of the University for future use. Information as to any of the items following we would be glad to receive, addressed to the Secretary:

1. Names of graduates and parents.
2. Date, month and year, and place of birth.
3. Facts of early life and education.
4. Date of admission to College, and class entered.
5. Particulars of professions studied, degrees, etc., etc.
6. Any offices, titles, honors of after life.
7. Marriage, facts of subsequent history, and time, place and circumstances of decease.
ANNUAL ANNOUNCEMENT

FOR 1876-7.

NEW LOCATION.

A donation of one hundred and fifty thousand dollars (to be paid in five equal annual installments) and of a beautiful new Campus of twenty-five acres were generously offered by the enterprising citizens of Irvington, on condition that the University should be removed to that place. The Campus is situated in a natural grove of forest trees, adjoining Irvington on the west, and between the Central and Junction railroads.

The grounds are high and command a beautiful view of the surrounding country for miles, embracing the handsome villas, winding streets and tastefully laid out grounds of the beautiful suburb which they adjoin.

THE NEW BUILDING.

Accepting the above named offer, the Board at once appointed a Building Committee, under instructions to proceed as rapidly as the payment of the proposed donation would justify, and erect a building suitable to the wants and purposes of the Institution. Under their instructions, the Committee commenced laying the foundation in the fall of 1874, and the building was ready for occupancy, and the school opened in it on the 15th of September, 1875.

The building is of brick, with stone foundation and trimmings, is 75\times135 \text{ feet}, two stories and a basement, and will conveniently accommodate five hundred students. It has been built and finished, not so much with reference to costly architecture and display in style, as with reference to the exact wants of the teacher and the class. It is heated throughout with steam—has hot and cold water, and all the modern conveniences. On the basement floor are located the Secretary's office, the Board
The annual catalogue of the room, Janitor’s room, and four large Cabinet and Laboratory rooms, two Recitation or Lecture rooms, a fine Library, and a Reading room. On the second floor are twelve large Recitation rooms, and adjoining each a private room for the professor. On the third floor is the Chapel, 52x60 feet in clear, with gallery. It is lighted in full on both sides, and finished and furnished in the best of taste for the wants of an institution of learning, and will comfortably seat five hundred students. Also on this floor are four Society Halls, for the four literary societies already organized. There are also on each floor from two to three large hat and cloak rooms for both ladies and gentlemen. There are two halls running through the building, giving four doors for entrance and exit, and one transverse hall connecting these two. There are four stairways to ascend and descend, these landing in the main and connecting halls above and below, so that a very large number of students can pass from room to room, or from floor to floor with perfect ease and convenience. The floors and walls are all “deadened”—blackboards are built in the walls of all rooms needing them—the chemical laboratory is furnished with a hundred or more gas jets—gas is also taken through the entire building—the most approved method of ventilation in both floors and halls through flues has been introduced, besides the windows, with which every room has a plentiful supply, and in a word, the most careful attention has been given throughout, to make the building one of the most complete and perfect college buildings anywhere to be found. And the Board believe they have accomplished this ; such at least is the opinion of those competent to judge, who have visited and inspected the building.

Other buildings will also be erected from time to time as the wants of the school may require.

IRVINGTON.

This suburb, embracing within its corporation about one square mile, enjoys an elevated and undulating site, about four miles east of Indianapolis, on the National road, and on the P. C. and St. L., and C. H. and I. railroads.
The streets have been laid out of generous width—usually winding—and the ground subdivided into lots usually from one to three acres, and, so far, adorned with a number of handsome and costly private residences.

For the accommodation of the citizens and University students, a street railway has been built, connecting the suburb with the city. This, with omnibus lines and the regular and special trains of the two railroads, will furnish rapid and cheap transportation to and from the city. Four boarding houses, already built, with the resources of private boarding, will furnish homes for those students who prefer living at Irvington.

**TO REACH IRVINGTON.**

Students coming from the east on either the Junction or Central Railroad, can take a train that stops at Irvington. Students coming on any other road will come to Indianapolis—but without leaving Union Depot, can take either of the above roads to Irvington; or, three squares from Union Depot, can take the Irvington street car. The distance is but four miles. New students on arriving will report immediately to the Secretary, at his office in the buildings, where they will be assisted in securing suitable places to board.
AN ORDINANCE

FOR THE

GOVERNMENT OF THE UNIVERSITY.

OF STUDENTS.

SECTION 19. Students of either sex, of good moral character and habits, shall be entitled to admission into the University. Every candidate for admission as a student must pay the Treasurer of the Institution the tuition fees in advance, for not less than one term. Each student of the age of fourteen years or upwards, when he or she applies for admission as a student, shall procure and read a copy of the By-Laws pertaining to the duties of students, and shall then sign his or her name in a book to be kept for that purpose by the Secretary of the Faculty, stating his or her age and place of nativity, and the name of his or her parent or guardian, under a caption, in the following words: "Having carefully read the By-Laws pertaining to the duties of the students of the North Western Christian University, I do hereby subscribe myself student thereof; and I do hereby solemnly promise that, during my connection with it, I will faithfully observe and obey its laws, rules and regulations."

SECTION 20. To remain a student in connection with the University, every student is requested to observe the following regulations:

1. Immediately after matriculation, the student shall select from the different schools, with the advice and consent of the Faculty, an amount of study equal to three daily recitations.

2. That the student be diligent in study, and punctual in his attendance upon recitations, examinations and other college exercises.
3. That having entered any College class, the student shall not leave it without permission of the Faculty.

4. That the student neither introduce nor use upon the premises of the University any intoxicating beverages.

5. That the student do not bring nor use upon said premises any firearms, dirk, bowie-knife, or any other kind of deadly weapon.

6. That the student abstain from profanity, the desecration of the Lord's Day, all kinds of gaming, even for amusement, and whatever is inconsistent with good order, good taste, and good morals.

7. That the student attend public worship at least once every Lord's Day.

8. That the student be strictly moral in language and conduct, respectful to the officers of the institution, and courteous and kind to all the students of the University.

9. That the student carefully observe all the rules and regulations contained in any part of this Ordinance, respecting fees, societies, and University grounds and buildings.

The marriage of any student, during term time, shall, in the discretion of the Faculty, be regarded as sufficient reason for the disconnection of such student from the Institution for the remainder of the term.

OF DISCIPLINE.

SECTION 22. The discipline of the University is confined to the Faculty, under the provisions herein contained. As far as practicable, it shall be parental, and all severe and disgraceful punishment shall be avoided, and appeals addressed to the reason and conscience. But to maintain good order, and to secure the very important objects for which the Institution was founded, the Faculty may inflict, at their discretion, according to the character of the offense, any of the following penalties:

1. Private admonition.

2. Public admonition.

3. Suspension for a time, at the discretion of the Faculty.

4. Expulsion.
No student shall be publicly suspended or expelled without an opportunity of being fully heard in his or her own defense; and in all cases of expulsion, the party expelled may appeal to the Board within thirty days, in which case the action of the Faculty shall not be final, till confirmed by the Board of Directors or Business Committee, as soon as either can be called together.

But whenever the Faculty are satisfied that, owing to the habitual idleness, profanity, or any other cause, the presence of a student in the University is unfavorable to its prosperity and the welfare of other students, they may suspend him or her privately, or require the parent or guardian to remove such student immediately from the Institution. In all cases of suspension or expulsion the delinquent shall forfeit the tuition fee for the remainder of the term.

Section 23. The Faculty may, from time to time, make such prudential regulations pertaining to the social intercourse of the sexes as they may deem expedient.
