NORTH-WESTERN
CHRISTIAN UNIVERSITY.

The Charter of this Institution authorizes its Board of Directors to organize Colleges for Literature and Science, Law, Medicine, and a Normal School. The following Departments exhibit the Course of Study required for graduation in the Colleges of Literature and Science, and Law. Additional departments will be organized, as the exigencies of the Institution may demand.

I.—ENGLISH AND PREPARATORY DEPARTMENT.
Prof. MADISON EVANS, A. M.

In the English Department, the principal studies are Spelling, Reading, Penmanship, Mental and Written Arithmetic, Descriptive and Physical Geography, Rhetoric, History, English Grammar, Composition, Elocution, and Drawing.

In the Preparatory Department, the course comprises the Elements of Algebra, Latin and Greek.

II.—MATHEMATICAL DEPARTMENT.
Prof. G. W. HOSS, A. M.

The Studies in this Department are Algebra, Geometry, Trigonometry, Plane and Spherical; Surveying, Conic Sections, Mechanics, Calculus, and Astronomy.

Special instruction will be secured to any who may pursue the subject of Surveying with a practical object in view. Analytical Geometry may, at the option of the Class, be substituted for Surveying and Conic Sections, and the Elements of Engineering for Calculus.

Mathematical Instruments—Planetarium, Plane Compass, Solar Compass and Engineer's Theodolite.
III.—CLASSICAL DEPARTMENT.

Prof. A. R. BENTON, A. M.

The books read in this Department embrace an extensive course of study in Latin and Greek.

The course will comprise the reading of the following authors: In Latin, Caesar's Commentaries, Virgil, Cicero's Orations, Horace, Cicero de Amicitia, Tacitus, Cicero's Tusculan Disputations, Plautus. In Greek, Xenophon's Anabasis and Memorabilia, Herodotus, Homer's Iliad, Thucydides, Demosthenes, Sophocles, Greek and Roman Antiquities. Plautus, Thucydides, and Demosthenes are elective.

IV.—DEPARTMENT OF NATURAL SCIENCE.

Prof. R. T. BROWN, A. M., M. D.

This Department embraces the study of Chemistry, Natural Philosophy, Physiology, Botany, Meteorology, Zoology, and Geology. The Text Books in this Department will be illustrated by Experiments, Charts, and Diagrams, and the whole course will be accompanied by lectures and full expositions of the principles taught.

In the last term of the year, a Course of Lectures will be delivered on Chemistry in its application to Agriculture and the Mechanical Arts.

V.—DEPARTMENT OF ETHICS AND INTELLECTUAL SCIENCE.

Prest. S. K. HOSHOURE, A. M.

To this Department belong the Evidences of Revealed Religion and its Analogy to Nature, Moral Philosophy and Natural Theology.

For the present, Logic, Rhetoric, Intellectual Science, and Political Economy will be taught in this Department.

The Charter of the Institution requires the Bible to be taught as a Class-Book, but forbids the inculcation of sectarian or partizan dogmas; and to attain this end each Student will be required to attend a Bible Class every Monday morning.
VI.—DEPARTMENT OF MODERN LANGUAGES.

In this Department the German and French languages are practically and availabley taught. In both languages the most approved Text Books are used—such as, Woodbury's Method in the German—his successive readers, and in order to familiarize the Student with the business part of the language, a weekly German Newspaper is, for a time, introduced and carefully studied.

In the French, Fasquelle's Course is adopted, and at a suitable stage of the Student's progress, a French Journal is also made a subject of study. The whole course for each language comprises one year and two-thirds. Classes will only be formed at the opening of each College year.

VII.—NORMAL INSTRUCTION.

Prof. G. W. HOSS, A. M.

A class will be taught in this Department throughout the year.

The exercises will consist of Drills in the Modes of Teaching the branches of a common school education, accompanied by Lectures on the principles and methods of Organizing, Grading, and Managing Schools.

No extra charges in this Department to members who are Students in other Departments of the Institution.

MISCELLANEOUS.

ADMISSION.

Students from other Colleges will be required to present certificates of honorable dismissal and scholarship, and if satisfactory, will be admitted to their classes without examination, but others who are candidates for an advanced standing, will be examined before admission to it.

Students, before entering the English and Preparatory Department, will be examined with regard to their proficiency, and their studies will be assigned accordingly.

EXAMINATION.

There will be an Examination at the close of the first and second terms, before the Faculty, and a public Examination at the close of the Collegiate year, at which all Students are required to be present. Students who are candidates for graduation will be examined at the commencement of their graduation year in the studies of the English Department.

PUBLIC EXHIBITIONS.

The members of the Senior, Junior, and Sophomore Classes are required to give one exhibition each during the year; the Senior Class the first week of the first term; the Junior Class, the first week of the second term; and the Sophomore Class, the first week of the third term.

LIBRARY.

The Institution is furnished with a small Library, to which, it is hoped, large accessions will soon be made, by purchase and donations from friends.

LITERARY SOCIETIES.

In connection with the University are three Literary Societies—the Mathematician, Pythonian, and Sigournean, which are valuable auxiliaries to the Institution. Donations of Books to these Societies will be gratefully received.
QUARTERLY REPORTS.

A register is kept of the daily attendance, progress, and deportment of each student, a synopsis of which is furnished, at the close of each term, to the parent or guardian.

CABINET AND APPARATUS.

The Cabinet of the Institution, the bequest of the late Dr. Van Tuyl, of Dayton, Ohio, is especially valuable.

The Institution also possesses a well selected Chemical and Philosophical Apparatus, as a nucleus for further acquisition. Donations to either will be gratefully received.

BUILDING AND CAMPUS.

The University Building is situated one-and-a-half miles north-east of the centre of the City, in a Campus of twenty-five acres, covered with primitive forest trees. Its location secures the advantages of both city and country.

BOARDING.

Boarding is easily obtained in good families, at rates from two dollars and fifty cents to three dollars per week.

RELIGIOUS INSTRUCTION.

Students are required to attend public worship once, at least, every Sabbath and the Sabbath lectures in the University Hall.
