NORTH-WESTERN CHRISTIAN UNIVERSITY.

The Charter of this Institution authorizes its Board of Directors to organize Colleges for Literature and Science, Law, Medicine, and a Normal School. The following Departments exhibit the Course of Study required for Graduation in the College of Literature and Science, and Law. Additional Departments will be organized as the exigencies of the Institution may demand.

I.—Department of Ethics and Greek.

Prof. A. R. BENTON, President.

To this Department belong the Evidences of Revealed Religion, Moral Philosophy and the Bible.

For the present, Logic, Rhetoric, Intellectual Science, and Political Economy, will be taught in this Department.

The Charter of the Institution, requires the Bible to be taught as a Class Book, but forbids the inculcation of sectarian or partizan dogmas; and to attain this end, each Student will be required to attend a Bible class every Monday morning; in addition to this there is a regular daily Bible Class.

In Greek are read Xenophon's Anabasis and Memorabilia, Herodotus, Demosthenes, Homer's Iliad, and Sophocles. Thucydides and Plato are elective.

II.—Mathematical Department.

Prof. W. M. THRASHER, A. M.

The Studies in this Department are Algebra, Geometry, Trigonometry, Plane and Spherical, Surveying, Mechanics, Conic Sections, and Analytical Geometry, Calculus and Astronomy.

Special instructions will be secured to any who may pursue the subject of Surveying, with a practical object in view.

Mathematical Instruments—Planetarium, Plane Compass, Solar Compass, and Engineer's Theodolite.

III.—Department of Natural Science.

Prof. R. T. BROWN, A. M., M. D.

This Department embraces the study of Chemistry, Natural Philosophy, Physiology, Botany, Physical Geography, and Geology. The Text Books in this Department will be illustrated by Experiments, Charts, and Diagrams, and the whole Course will be accompanied by Lectures and full expositions of the principles taught.

In the last term of the year, a Course of Lectures will be delivered on Chemistry in its application to Agriculture and the Mechanical Arts.

IV.—Department of Modern Languages and Latin.

Prof. S. K. HOSHOUR, A. M.

In this Department, the German and French Languages are practically and availably taught. In both languages the most approved Text Books are used, and in order to familiarize the Student with the business part of the language, a weekly German Newspaper is, for a time, introduced, and carefully studied.

In the French, at a suitable stage of the Student's progress, a French Journal is also made a subject of study. The whole course for each language comprises two years. Classes will be formed only at the opening of each College year.

In Latin are read Cæsar, Virgil, Cicero's Orations, Horace, Livy, Cicero's Amicitia and Disputations, Tacitus, and Plautus.

V.—Biblical Department.

Instruction in this Department will be given by Lectures during the last term of each Collegiate year. The subjects and lecturers during the year have been as follows:

Preparation for the Pulpit, Pastoral.—O. A. Burgess.

Principles of Interpretation and Biblical Criticism.—A. R. Benton.

Evangelical Labor.—E. Goodwin.

Christian Evidences.—R. T. Brown.

VI.—English and Preparatory Department.

Prof. A. FAIRHURST, A. B.

In the English Department, the principal studies are Arithmetic, Descriptive and Physical Geography, History, English Grammar, and Composition.

In the Preparatory Department, the Course comprises the Elements of Algebra, Latin, Greek and Rhetoric.

MISCELLANEOUS.

Admission.

Students from other Colleges will be required to present certificates of honorable dismissal and scholarship, and if satisfactory, will be admitted to their classes without examination; but all others will be examined before classification.

Examinations.

There will be an examination at the close of the first and second terms, before the Faculty, and a public Examination at the close of the Collegiate year. Students who are candidates for graduation will be examined at the commencement of their graduation year, in the studies of the English Department.

Library.

The Institution is furnished with a small library, to which, it is hoped, large accessions will soon be made, by purchase, and by donations from friends.

Societies.

In connection with the Institution are four Literary Societies—the Mathesian, Pythonian, Sigournean, and Athenian; also a Religious one—the Threskomathian, which are valuable auxiliaries to the Institution. Donations of books to any of these Societies will be gratefully received.

Quarterly Reports.

A Register is kept of the daily attendance, progress and deportment of each Student, a synopsis of which is furnished, at the close of each term, to the parent or guardian.

Cabinet and Apparatus.

The Cabinet of the Institution, chiefly the bequest of the late Dr. VAN TUYL, of Dayton, Ohio, is especially valuable.

The Institution also possesses a well selected Chemical and Philosophical Apparatus as a nucleus for further acquisition. Donations to either will be thankfully received.

Location.

The University Building is situated one mile and a half north-east of the centre of the city, in a Campus of twenty-five acres, covered with primitive forest trees. Its location secures the advantage of both city and country.

Boarding.

Boarding is easily obtained in good families at rates from four to five dollars per week. Students can board themselves at much lower rates.

Religious Instruction.

Students are required to attend public worship once, at least, every Sabbath, and the Sabbath Lectures at the University Hall.

Rhetorical Exercises.

Exercises in Declamation and Composition are required of every Student who is not a member of one of the Societies.

Calendar.

The College Year is divided into three Terms.

First Term—Commences Wednesday, September 16th, and closes December 24th—fourteen weeks.

Second Term—Commences January 4th, 1869, and closes March 30th—thirteen weeks.

Third Term—Commences April 4th, and closes June 26th—twelve weeks.

Degrees.

The degree of Bachelor of Arts will be conferred on all those who complete the regular College Course.

The degree of Bachelor of Science will be conferred on Students who complete the Scientific Course.

Female Students, on completion of the Female Collegiate Course, will receive the Scientific Baccalaureate degree; and on completion of the College Course will receive the full Baccalaureate degree.

The Degree of Master of Arts will be conferred on regular Graduates of three years standing, who shall have sustained in the meantime, a good moral character, and have been engaged in professional, literary, or scientific pursuits. If a Diploma is given, the fee is five dollars.

Application for Diploma of Master of Arts should be made two weeks before commencement.

Expenses.

Tuition, per term, in College Classes	\$14 00
Tuition, per term, in Preparatory and English Department	14 00
Graduation fee	5 00
Janitor fee, per term	1 00
Matriculation fee, per annum	5 00

Students are required to pay the Fees to the Treasurer, in advance, for each Term.

German and French taught without extra charge.

The Shareholders of the Institution are entitled to interest on their Stock, payable in Tuition. For this interest, Scrip is annually issued, and this Scrip is received at par, as cash, for the Tuition Fees. A large amount of the Scrip is now outstanding in the hands of the Shareholders, or in the Secretary's hands awaiting their orders. Shareholders who do not need to use it, are generally disposed to sell, and are in the habit of putting it into the hands of an agent at or near the Institution, for sale. It is presumed that hereafter the students will be able to purchase this Scrip readily, at Fifty cents on the dollar, thus reducing the actual cost of Tuition to them, to one-half the amount above named.

Shareholders desiring to sell their Scrip would do well to place it in the hands of some person, at or near the Institution, for sale.
