III.—Department of Natural Science.

Prof. R. T. BROWN, A. M., M. D.

This Department embraces the study of Chemistry, Natural Philosophy, Physiology, Botany, Physical Geography, and Geology. The Text Books in this Department will be illustrated by Experiments, Charts, and Diagrams, and the whole Course will be accompanied by Lectures and full expositions of the principles taught.

In the last term of the year, a Course of Lectures will be delivered on Chemistry in its application to Agriculture and the Mechanical Arts.

IV.—Dep't Ancient Languages and French.

Prof. S. K. HOSHOUR, A. M.

In the French, at a suitable stage of the Student's progress, a French Journal is also made a subject of study. The whole course for the language comprises two years. Classes will be formed only at the opening of each College year.

In Latin are read, Virgil, Cicero's Orations, Horace, Livy, Cicero's Amicitia and Disputations, Tacitus, and Plautus. In Greek, Demosthenes, Homer's Iliad, Sophocles, Thucydides and Plato.

V.—Department of English Literature and German Language.

Prof. Miss CATHARINE MERRILL.

In addition to English Literature, the German Language is practically and availably taught. The most approved Text Books are used, and in order to familiarize the Student with the business part of the language, a weekly German Newspaper is, for a time, introduced, and carefully studied.

Preparatory Department.

Prof. HARVEY W. WILEY, A. B.

In this Department will be taught the Latin and Greek Grammars, and Readers, Caesar, Virgil, and Cicero's Orations, Xenophon's Anabasis, Herodotus, and Greek Prose Composition, Rhetoric, Elocution, and Composition, Ancient and Modern History and Algebra.

Other Courses of Study.

IN addition to the Classical course, the Scientific course, which omits entirely the Greek, and, after the Preparatory years, the Latin also, is offered to those preferring it. Students having special ends in view, can study such branches as suit their purpose, and having satisfactorily completed any branch or department, may receive a certificate to that effect; but no diploma will be granted, except upon satisfactory completion of all the Studies of the Classical or Scientific Course.

The regular Classical Course is earnestly recommended by the Faculty and Directors, as that which the experience of the past and the practice of the best Institutions of the present have shown to be best adapted to the harmonious development of all the intellectual powers.

Students of the Bible, to whom the Classical Course is not possible, are advised to omit the Latin and higher Mathematics, taking in their stead the optional Biblical Studies and two years in Hebrew.

EXTRA BRANCHES.

The following branches will be taught,—tuition extra:

DRAWING—Pencil, per term

PAINTING—Water Colors, per term

PAINTING—Oil, per term

MUSIC—Per Term

Lectures.

LECTURES, in elucidation of the Text-book, will be delivered in connection with the following Branches of Study:

With Horace, Third Term of the Freshman, Lectures on the Augustan Age of Literature.

Lectures on the Greek Stage and Drama, with Sophocles.

Before the Second Preparatory of Latin and Greek classes, third term, Lectures on the Greek and Roman Mythology.

With Cicero's Tusculan Disputations, Lectures on the Sects of the Ancient Philosophy.

In connection with Botta's Literature, Lectures on Comparative Philology.

Applied Chemistry, Geology—third term—and portions of the Biblical Course will be taught by Lectures.

BOOKS OF REFERENCE.

STUDENTS are earnestly requested to provide themselves, when possible, with books of reference. They largely aid the interest and thoroughness of the acquisitions derived from the Text-books. The following are recommended: In the study of Physiology, Chemistry, Geology, Natural Philosophy, Botany, Zoology and Political Economy, reference may be made respectively to Draper and Carpenter, Miller, Lyell's Principles and Elements, Silliman's Physics, Woods, Gould and Agassiz, and the works of Perry and Carey.

In the study of Greek and Latin, in addition to the Lexicons, Anthon's Classical Dictionary and Greek and Roman Antiquities, are almost indispensable. A good Classical Atlas, as Findlay's or Spruner's, is important. For Philology, consult the works of Dwight, Bopp, etc.

To Students of History, Grote's Greece, Arnold's Rome, Gibbon's Decline, Merrivale's Empire, Hume's England, White's France and Kolrausch's Germany, are recommended.

The Bible Student will find valuable aid in Horne's Introduction, Smith's Bible Dictionary, Schaff's or Neander's Works, Englishman's Greek Concordance, Milligan's Reason and Revelation and Scheme of Redemption, etc.

Female College Course.

THE FEMALE COLLEGE COURSE has been abolished. It will be remembered that our Institution is chartered as a University. The common sentiments and customs of the Literary world justly demand in Universities a higher standard of scholarship, and a more extended course of study, than usually found in the ordinary Academic Course. As at least one important step toward meeting these demands, the Board have determined to make no distinction between male and female students, with respect to branches of study, but invite them to pursue those branches upon an "equal" footing, and side by side make proof of the "rights" to the highest Academic honors.

Miscellaneous.

Admission.

Students from other Colleges will be required to present certificates of honorable dismissal and scholarship, and, if satisfactory, will be admitted to their classes without examination; but all others will be examined before classification.

Examinations.

There will be an examination at the close of the first and second terms, before the Faculty, and a public Examination at the close of the Collegiate year. Students who are candidates for graduation will be examined at the commencement of their graduation year, in the studies of the English Department.

Library.

The Institution is furnished with a small library, to which, it is hoped, large accessions will soon be made, by purchase, and by donations from friends.

Societies.

In connection with the Institution are four Literary Societies—the Mathesian, Pythonian and Athenian; also a Religious one—the Philokurian, which are valuable auxiliaries to the Institution. Donations of books to any of these Societies will be gratefully received.

Quarterly Report.

A Register is kept of the daily attendance, progress and deportment of each Student, a synopsis of which is furnished, at the close of each term, to the parent or guardian.

Cabinet and Apparatus.

The Cabinet of the Institution, chiefly the bequest of the late Dr. VAN TUYL, of Dayton, Ohio, is especially valuable.

The Institution also possesses a well selected Chemical and Philosophical Apparatus as a nucleus for further acquisition. Donations to either will be thankfully received.

Location.

The University Building is situated one mile and a half north-east of the center of the city, in a Campus of twenty-five acres, covered with primitive forest trees. Its location secures the advantage of both city and country.

Boarding.

Boarding is easily obtained in good families at rates from four to five dollars per week. Students can board themselves at much lower rates.

Religious Instruction.

Students are required to attend public worship once, at least, every Sabbath, and the Sabbath Lectures at the University Hall.

Rhetorical Exercises.

Exercises in Declamation and Composition are required of every Student who is not a member of one of the Societies.

Calendar.

The College Year is divided into three Terms.

First Term—Commences Wednesday, September 15th, and closes December 23d.

Second Term—Commences January 3d, 1870, and closes March 30th.

Third Term—Commences April 4th, and closes June 24th.

Degrees.

The degree of Bachelor of Arts will be conferred on all those who complete the regular College Course.

The degree of Bachelor of Science will be conferred on Students who complete the Scientific Course.

The Degree of Master of Arts will be conferred on regular Graduates of three years standing, who shall have sustained in the meantime, a good moral character, and have been engaged in professional, literary, or scientific pursuits. If a Diploma is given, the fee is five dollars.

Application for Diploma of Master of Arts should be made two weeks before commencement.

Expenses.

The Fees in the Institution are fixed as follows:

For Tuition in College proper and Preparatory Department:

Per Session in Scrip,	-	-	-	-	-	-	-	\$42 00
Per Term in Scrip,	-	-	-	-	-	-	-	14 00

MATRICULATION FEES.

Per Session in Cash,	- - - - -	\$5 00
Per Term in Cash,	- - - - -	2 00
Janitor's Fees per term,	- - - - -	1 00
Graduation Fee,	- - - - -	5 00

It is presumed that those students who may not have the Scrip to pay their Tuition Fees in College and Preparatory Departments can purchase it here at fifty cents on the dollar.

Those stockholders who wish to sell their Scrip would do well to send it to some person here to sell for them. There is much Scrip out in the hands of stockholders—more probably than there will be a demand for; but the first offered will probably be the first sold. To entitle any stockholder to Scrip for any year, he must first have paid his interest for that year.

Students are required to pay the Fees to the Treasurer, in advance for each Term, or the whole Session as they may choose.

German and French taught without extra charge.

Demia Butler Chair.

Miss CATHARINE MERRILL, Professor.

It will be seen by inspecting the courses of study, that a new Chair has been added, called the "Demia Butler Chair of English Literature," in honor of DEMIA BUTLER, now deceased, the first female to be graduated in the full Classical Course of the Institution. This chair has been endowed by OVID BUTLER, Esq., of this city, to be perpetually filled by a female Professor. The Board have been fortunate in securing the services of Miss CATHARINE MERRILL for the Chair, a thorough teacher, of large experience, and under whose care the friends and patrons of the University may safely place their daughters, and to whom without reserve they may intrust their moral and educational wants and interests.

AN ORDINANCE

FOR THE

Government of the University.

OF STUDENTS.

SECTION 19. Students of either sex, of good moral character and habits shall be entitled to admission into the University. Every candidate for admission as a student must pay the Treasurer of the Institution the tuition fees in advance, for not less than one term. Each student of the age of fourteen years or upwards, when he or she applies for admission as a student, shall procure and read a copy of the By-Laws pertaining to the duties of students, and shall then sign his or her name in a book to be kept for that purpose by the Secretary of the Faculty, stating his or her age and place of nativity, and the name of his or her parent or guardian, under a caption, in the following words: "Having carefully read the By-Laws pertaining to the duties of students of the North-Western Christian University, I do hereby subscribe myself student thereof; and I do hereby solemnly promise that, during my connection with it, I will faithfully observe and obey its laws, rules, and regulations."

SEC. 20. To remain a student in connection with the University, every student is required to observe the following regulations:

1. Immediately after matriculation, the student shall select from the different schools, with the advice and consent of the Faculty, an amount of study equal to three daily recitations.

2. That the student be diligent in study, and punctual in his attendance upon recitations, examinations, and other College Exercises.

3. That having entered any College Class, the student shall not leave it without the permission of the Faculty.

4. That the student neither introduce nor use upon the premises of the University, any intoxicating beverages.

5. That the student do not bring or use upon said premises any fire arms, dirk, bowie-knife, or any other kind of deadly weapon.

6. That the student abstain from profanity, the desecration of the Lord's day, all kinds of gaming, even for amusement, and whatever is inconsistent with good order, good taste, and good morals.

7. That the student attend public worship at least once every Lord's day.

8. That the student be strictly moral in language and conduct, respectful to the officers of the Institution, and courteous and kind to all the students of the University.

9. That the student carefully observe all the rules and regulations contained in any part of this Ordinance, respecting fees, societies, and University grounds and buildings.

The marriage of any student, during term time, shall, in the discretion of the Faculty, be regarded a sufficient reason for the disconnection of such student from the Institution for the balance of the term.

OF DISCIPLINE.

SECTION 22. The discipline of the University is confided to the Faculty, under the provisions herein contained. As far as practicable, it shall be parental, and all severe and disgraceful punishment shall be avoided, and appeals addressed to the reason and conscience. But to maintain good order, and to secure the very important objects for which the Institution was founded, the Faculty may inflict, at their discretion, according to the character of the offense, any of the following penalties :

1. Private admonition.
2. Public admonition.
3. Suspension for a time, at the discretion of the Faculty.
4. Expulsion.

No student shall be publicly suspended or expelled without an opportunity of being fully heard in his or her own defense; and in all cases of expulsion, the party expelled may appeal to the Board within thirty days, in which case the action of the Faculty shall not be final, till confirmed by the Board of Directors or Business Committee. The appeal shall be filed with the Secretary of the Board, and shall be acted on by the Board or Business Committee, as soon as either can be called together. But whenever the Faculty are satisfied that owing to the habitual idleness, profanity, or any other cause, the presence of a student in the University is unfavorable to its prosperity and the welfare of other students, they may suspend him or her privately, or require the parent or guardian to remove such student immediately from the Institution. In all cases of suspension or expulsion, the delinquent shall forfeit the tuition fee for the remainder of the term.

SEC. 23. The Faculty may, from time to time, make such prudential regulations pertaining to the social intercourse of the sexes as they may deem expedient.
