CALENDAR.

ANNOUNCEMENTS FOR 1886.

Athenian Exhibition.....	Friday, 8 P. M., June 11
Baccalaurate Address, by President Everest.....	Sunday, 4 P. M., June 13
Mathesian Exhibition.....	Monday, 8 P. M., June 14
Pythonian Exhibition	Tuesday, 8 P. M., June 15
Demia Butler Exhibition	Wednesday, 10 A. M., June 16
Class-Day Exercises.....	Wednesday, 2 P. M., June 16
Philokurian Exhibition.....	Wednesday, 8 P. M., June 16
Alumni Reunion	Thursday, 2 P. M., June 17
Address before the Literary Societies.....	Thursday, 8 P. M., June 17
Commencement.....	Friday, 10 A. M., June 18

ANNOUNCEMENTS FOR 1886-'87.

FINAL EXAMINATIONS.

Senior Examinations close (1887).....	Friday, May 27
Undergraduate Examinations close (1887)	Tuesday, June 14

ANNIVERSARIES.

Mathesian	May 5
Pythonian	October 19
Philokurian	November 6
Athenian	May 27
Demia Butler.....	June 10

HOLIDAYS.

National Thanksgiving Day, and the Friday following.
Christmas—New Year's, inclusive.
Founders' Day, February 7.
Washington's Birthday.

MEETINGS OF DIRECTORS.

Annual Meeting, Tuesday of Commencement Week, June 14, 1887.
Quarterly Meetings, second Tuesday of January, April, July and October.

TERMS.

First Term begins Tuesday, September 14; closes Friday, December 24.
Second Term begins Tuesday, January 4; closes Friday, March 25.
Third Term begins Tuesday, April 5; closes Friday, June 17.
Commencement, Friday, June 17.

BOARD OF DIRECTORS.

HON. JOS. I. IRWIN.....	Columbus.
HOWARD CALE, ESQ.....	Indianapolis.
ELD. JOHN C. MILLER.....	Nineveh.

L. C. WILSON, *Janitor.*

A. M. WESTON, *Sup't of the Boarding Hall.*

BUTLER UNIVERSITY.

REQUISITES FOR ADMISSION.

Both ladies and gentlemen are received as students.

Applicants for admission must present to the President satisfactory evidence of good moral character, and, if they come from another college, they must bring a certificate of class standing and of honorable dismissal.

For admission to the First Preparatory class, students must give satisfactory evidence of a respectable knowledge of Arithmetic, English Grammar, Descriptive Geography, and History of the United States.

The requisites for admission to the Freshman class may be seen by consulting the Course of Study in the Preparatory Department. Graduates of approved high-schools will be received into this class without examination.

Candidates for advanced standing must give satisfactory evidence, by examination or otherwise, of proficiency in the studies already passed by the class they propose to enter.

Applicants for admission are required to subscribe to the by-laws of the Institution as a pledge of their observance; students must settle with the Secretary and be registered for the classes of each term before taking part in the recitations.

Examinations for admission to the University will be held on the first day of each term.

DEPARTMENTS OF STUDY.

I.

BIBLICAL LITERATURE AND MORAL PHILOSOPHY.

H. W. EVEREST, }
A. R. BENTON, } *Professors.*

In this department the Bible is the text-book. At present two years, the Freshman and Sophomore, are devoted to its study, besides a full and elaborate discussion of Christian Evidences during the second and third terms of the Senior year.

In the Freshman year, the Old Testament will be studied; during the first term, the Pentateuch; the second term, Joshua, Judges, and the books of Samuel; the third term, the poetic books and Daniel.

The Sophomore class will study the New Testament; the first term, the Gospels; the second term, the Acts; the third term, Romans or First Corinthians.

The teaching is by lectures and a careful study and recitation of the Scriptures themselves.

In the Senior year, lectures are delivered on the Evidences of Christianity, which embrace not only the general questions of New Testament truth, but also the discussion of so-called "modern skepticism," resting, or supposed to rest, upon modern science. This course of lectures, as well indeed as the whole Biblical course, will be found specially beneficial to those young men who intend to enter the ministry, as also to those who have already done so, but have not fully acquainted themselves with these subjects.

Moral Philosophy will be studied during the third term of the Senior year. Instructions will be given in a course of lectures and in the use of a text-book.

Prof. Everest will conduct the above classes, and the text-books needed are the following: The Bible, a Bible Dictionary, a Bible Atlas, Everest's Text-Book of Christian Evidence, and Haven's Moral Philosophy.

In addition to the foregoing Biblical studies, young men preparing for the ministry are provided with the following classes: Church History, Homiletics and Hermeneutics, during the first, second and third terms, respectively, and Hebrew throughout the year. Prof. Benton will hear these classes. Post graduate courses of study in this department will be varied to suit the wants of individual students; the completion of such course will entitle the graduate to his second degree.

II.

PURE AND APPLIED MATHEMATICS.

W. M. THRASHER, *Professor.*

In the Classical and Philosophical courses, Mathematics will embrace Arithmetic, Algebra, Geometry, Trigonometry, and their applications to Mechanics and Astronomy.

In the Scientific course will be given, in addition, a complete course in Analytical Geometry, Differential and Integral Calculus, and Analytical Mechanics.

Requisites for entering the Freshman year—Arithmetic and Wentworth's Algebra completed, or an equivalent.

The first Preparatory class will begin Algebra (Wentworth) the third term.

First Term, in the second year of *Preparatory Course* will be devoted to chapters 1st to 8th, inclusive. Second Term—Chapters 9th to 18th, inclusive. Third Term—The work completed.

Freshman Year.—First Term—Wentworth's Geometry, five books. Second Term—Books 6th to 8th, inclusive. Third Term—Wentworth's Plane Trigonometry and Surveying.

Sophomore Year (Scientific).—First Term—Bowser's Analytical Geometry, plane and solid. Second Term—Bowser's Differential and Integral Calculus. Third Term—Wood's Analytical Mechanics.

After the session of 1886-87 all Sophomores will be required to take Analytic Geometry and Calculus.

Junior Year (Scientific).—First Term—Wood's Analytical Mechanics, finished. During the Second and Third Terms they will complete Silliman's Physics.

(Classical and Philosophical).—Text Book—Silliman's Physics. Classical and Philosophical students will devote the First Term to Silliman's Mechanics. They will then be joined by the Scientifics, at the beginning of the Second Term, and the Physics will be completed by the three classes together during the remainder of the Junior year.

Senior Year.—First Term—The necessary formulæ of Spherical Trigonometry will be mastered. Newcomb's Treatise on Astronomy will be studied during the Second Term.

SPECIAL WORK.

Students desiring a more exhaustive mathematical knowledge than is possible in the general scheme, can arrange a course of one or two years in Theory of Equations, Modern Geometry, Circular Functions, Determinants, Analytical Geometry in plane and space, Calculus, Mechanics, and Theoretical Astronomy.

The course and text books can be determined by letter or personal consultation with the Professor of this department.

III.

ENGLISH LITERATURE.

HARRIET NOBLE, *Professor.*

Before entering the Freshman class, the student must be well grounded in Grammar and the elements of Rhetoric.

In the Freshman class he is exercised in original composition, and in themes on historical subjects, besides the study of the first part of Guest's Lectures on the History of England, of Hale's Longer English poems, and of Shakespeare's Julius Cæsar.

The Sophomore writes themes on historical and literary subjects in connection with the study of Guest's Lectures on the History of England, continued.

The Junior studies Minto's Manual of Prose Literature.

The Senior reads Bacon and Shakespeare and makes use of Kellogg's English

Literature, in connection with various works of English and American authors.

Seniors and Juniors write critical essays.

Original productions, after receiving the private criticisms of the Professor, are read in the presence of the class, and are criticised by the class.

Books of reference, with which every student should supply himself, are the following: Green's History of England, and a Student's Atlas.

IV.

LATIN LANGUAGE AND LITERATURE.

SCOT BUTLER, *Professor.*

Students in Science take only the Preparatory course in Latin; others, the College course also.

Applicants for admission to advanced classes must pass examination on work that precedes.

Following are text books used: Chase & Stuart's Classical Series, Allen & Greenough's Grammar, Allen's Latin Method, Allen's Latin Composition, Leighton's History of Rome, Bender's Roman Literature.

Following are books of reference required: White's Junior Student's Latin English Lexicon, Smith's Classical Dictionary, Long's or Ginn & Heath's Classical Atlas, Ramshorn's Latin Synonyms.

First Preparatory class have Grammar and easy exercises.

Second Preparatory class review Grammar work of year preceding, finish Part First of Allen's Composition, and read three books of Cæsar's Commentaries, and two of Cicero's Orations Against Cataline.

Freshmen have Latin Composition and Roman History throughout the year, read three of Cicero's Orations, and four books of Virgil's *Æneid*.

Sophomores have Latin Composition through the first term, Roman History (the Empire) and History of Literature during the second and third terms; read Livy one term, Horace two terms.

Juniors read selected parts of Cicero's Tusculan Disputations, Old Age, Friendship, and Dream of Scipio.

V.

THE GREEK LANGUAGE AND LITERATURE.

D. C. BROWN, *Professor.*

For admission to the Freshman class, students will be required to pass an examination on all the general principles of Greek Grammar except Prosody, on Jones' Greek Prose Composition or Leighton's or Boise's Lessons in

Greek or an equivalent (the English exercises to be translated into Greek with the accents), and on one book of Xenophon's Anabasis.

The Preparatory class will use Leighton's Greek Lessons, and Goodwin's Greek Grammar; will study Jones' Greek Prose Composition, and Xenophon's Anabasis one term.

The Freshman class will read the Anabasis two terms, and Homer's Iliad the third term. A daily drill in Greek Prose Composition (Jones) will be continued through the year. Particular attention will be given to prosody and scanning during the study of Homer, and to the History of Greece (Smith) from the earliest period to the end of the Persian wars, including discussions on the origin of Homeric Poems.

The Sophomore class will read Homer (Boise or Keep) the first, Thucydides the second, and Plato's Apology and Crito the third, term. They will be required to study the History of Greece from the close of the Persian wars to the close of the Peloponnesian war; also Grote's chapter on Socrates, and Seeman's Mythology. Special attention will be given to securing an elegant English version of the authors read.

The Junior class will read Demosthenes de Corona (D. Ooge) during the first term, and a Greek tragedy of Æschylus, Sophocles or Euripides, during the second term. It will be the constant aim in reading these authors to express their meaning in concise and vigorous English. The History of Greece during the Macedonian Supremacy will be studied. Twice a week during the third term the History of Greek Literature will be taught, partly by means of a text-book and partly by lectures. Select passages in various authors not previously read may be given the class for translation.

BOOKS OF REFERENCE.

Every student in the College classes should be provided with a good History of Greece, Classical Atlas, Classical Dictionary and Greek-English Lexicon, A. Keith Johnson's Classical Atlas, Anthon's or Smith's Classical Dictionary.

VI.

INTELLECTUAL AND POLITICAL PHILOSOPHY, LOGIC AND RHETORIC.

H. W. EVEREST, }
A. R. BENTON, } *Professors.*

I. Instruction in Psychology is given by means of lectures, and a text-book. Lectures are given in order to introduce new topics, not treated in the text-book, or to give more ample discussion to subjects but partially treated by the author. Class discussions on controverted points are encouraged, and essays are required. Haven is used as a text-book. A course of lectures on the History of Philosophy is delivered the second term of the Senior year—three lectures per week.

II. Political Economy is taught chiefly by a text-book, and incidentally, questions of sociology are discussed. There are four exercises per week

the first term of the Senior year. Gregory is used as a text-book. Also, a course of lectures on the Constitution of the United States is delivered to the Senior class—two lectures each week—the second term of the Senior year.

III. Logic is taught by lectures and a text-book. The nature and laws of thought are taught by lectures, and formal logic by a text-book. For the latter purpose Jevons is used.

IV. In Rhetoric, as taught in the Junior year, chief attention is given to the nature and use of figures; the arrangement of arguments in discourse; and criticism of style. Bain's Rhetoric is used as a text-book; but special lectures are given and praxis required of the classes in Logic and Rhetoric.

The studies of a Post-Graduate course, taught by the professors of this department, are as follows: History of Philosophy, History of Civilization, History of the Constitution of the United States, Constitutional History of England, Introduction to Roman Law, and International Law.

Classes in Political Economy, Logic and Rhetoric, will recite to Professor Everest.

VII.

NATURAL HISTORY.

O. P. HAY, *Professor.*

The instruction in this department is given by means of lectures, recitations, laboratory practice, and field-work.

The Freshmen of the Scientific Course usually devote the first two terms to the study of the Vertebrata, and are taught to identify and describe species, and how to make and preserve collections. For these purposes the collections of the University Museum are available; but each student is required to collect a considerable number of species.

Physiology is studied by the students of all the courses during the first half of the Sophomore year. Huxley's Elementary Physiology is used as the text-book; but, in order to give more reality to the student's knowledge of the science, numerous dissections and preparations of the more important organs of some of the domestic animals are brought before the class. Histology is illustrated by a number of well-prepared microscopical slides. The last half of the Sophomore year is devoted to the study of Botany; the greater part of the third term to the determination and study of species of native plants. Each student is required to prepare an herbarium. Prantl & Vine's Text-book of Botany is used in studying the structure and physiology of plants, and the works of Professor Gray and Wood in the identification of species.

The students in all the courses are required to study Zoology during the first term of the Junior year; those of the Scientific and Philosophical courses pursue the study during the second term also.

Meteorology is taken up during the third term of the Junior year.

Geology is studied during the first and second terms of the Senior year, LeConte's Geology being the adopted text-book. During the second term the students are expected to study and identify the fossils of some geological period. Mineralogy is taught in connection with Geology. Especial attention is given to Vertebrate Palæontology.

VIII.

PHYSICS AND CHEMISTRY.

Instruction by Professors THRASHER and HAY.

In the course of Arts and Philosophy, Physics will occupy the Junior year. The text-book will be Silliman's Physics.

In the Scientific course, Wood's Mechanics will be taught during the first term of the Junior year. The class will then begin at page 148 of Silliman's Physics and finish the work the second and third terms.

Students in each of the three courses will begin Chemistry with the first term of the Junior year using Youman's Class-book of Chemistry. This term only is required of students who are taking the Classical course; of others, study of Chemistry during the entire year is required. Craft's Qualitative Analysis is used by the student in his laboratory work. The works of Fresenius and others are also to be found in the laboratory. The laboratory is provided with the necessary apparatus and chemicals for the study of Quantitative and Qualitative Analysis.

IX.

MODERN LANGUAGES.

H. C. GARVIN, *Professor.*

The Scientific and Philosophical courses comprise three terms of French and nine of German. In the Classical course, French or German is required in the Junior year. Throughout the course, vigorous drill in grammar and composition goes hand in hand with the reading and translation of literary masterpieces. Each reading lesson is made the basis of a conversation in the language of the lesson.

GERMAN.

Candidates for admission to the Freshman class (Scientific and Philosophical courses) are required to pass an examination in the whole of Sheldon's German Grammar and fifty pages of Boisen's German Prose. Equivalentents are accepted.

The Freshman class will read Müller's *Geschichte des Deutschen Volkes*.
Composition alternates with reading throughout the year.

For the Sophomore class, works are selected, as far as possible, to suit the taste of the class. The selections are usually made from Freytag, Schiller, Goethe, and Lessing.

Composition once a week throughout the year.

FRENCH.

Instruction in French begins with the Junior year.

Text-books: Worman's First French Book and *Petite Grammaire* (Bracket).

The class will read plays by Scribe, Racine, Corneille, and Moliere, and La Fontaine's Fables.

EDUCATIONAL AUXILIARIES.

I.

LECTURES.

Lectures will be delivered by members of the Faculty, Friday mornings before the whole school; and also special lectures will be delivered by the Professors of the various Departments in elucidation of the subjects of the text-books.

II.

RHETORICAL EXERCISES.

In addition to the requirements in English literature, as indicated in the various courses of study, critical essays will be required of the several classes on subjects pertinent to their different branches of study.

III.

LITERARY SOCIETIES.

Five Literary Societies are now organized and in successful operation at the University. These are the Mathesian, Pythonian and Philokurian, composed of young gentlemen; the Athenian and the Demia Butler, composed of young ladies.

All these Societies are, by the By-Laws of the University, placed under the supervision of the Faculty.

The Athenian and the Demia Butler receive the care and attention of Miss Noble.

These Societies, properly conducted, are very important agencies in the social and literary culture of the students of the Institution. Well selected libraries, accessible to the members of the Societies, give important additional means of culture. Contributions to them will be thankfully received.

IV.

COLLECTIONS IN NATURAL HISTORY AND GEOLOGY.

The Cabinet of the University now consists of the following collections:

1. A collection of fossils, minerals, marine shells, etc., purchased of Mr. W. D. Frazee, of Santa Barbara, California. This, with a similar collection of fossils presented by Mr. Van Tuyl, of Ohio, affords a very complete illustration of the rocks and fossils of the different geological ages. The species found in this State are especially well represented.
2. Collections of the marine animals of the coast of New England, made by Professor Jordan, at Cape Cod, and at New Haven, Conn., by Professor Hay.
3. A collection of about one hundred and fifty species of fishes, preserved in alcohol, representing very completely the fish fauna of the Ohio valley and the great Lake region.
4. A collection of about four hundred species of land and fresh water shells.
5. A collection of about four hundred and fifty species of marine shells.
6. A number of skins of birds and mammals.
7. A small herbarium.
8. A very considerable number of stone implements and other specimens illustrative of Ethnology.
9. A collection of reptiles, fishes, etc., made by Professor Jordan and Mr. Gilbert in the Allegheny region of the Southern States during the scientific expeditions of three summers. This collection is of much importance, as it includes the original types of upwards of fifty new species described by Professor Jordan in the *Annals of the New York Lyceum of Natural History* and the *Bulletins of the United States National Museum*.
10. A collection containing most of the species of Reptiles and Amphibians of the Mississippi valley.
11. A collection of marine animals of the coast of North Carolina, obtained by the scientific expedition of 1879, at Beaufort.
12. A large series of marine fishes—duplicates procured from the United States National Museum. Of these more than one hundred and thirty species have been received.
13. A collection of fishes and reptiles made during the year 1880 in Mississippi by Professor Hay. This collection includes the types of a number of new species.
14. A collection of cretaceous and tertiary fossils, made also in Eastern Mississippi by Professor Hay.
15. A second collection of fishes made by Professor Hay in Western and Central Mississippi, during the year 1881.

16. A collection of geological specimens made in Northern Michigan by Professor James A. Young.

17. A collection of reptiles and fishes made during the last season in Florida, by H. T. Mann and D. M. Davison.

18. A collection of serpents made partly in Indiana and partly in Mississippi, by the late Charles Jameson, of Indianapolis.

19. A considerable alcoholic collection of Invertebrates, including many marine and fresh water crustaceans, echinoderms, mollusks and worms.

In the Department of American Ichthyology, the collection in the possession of Butler University is one of the largest in the West.

Numerous specimens of even the commonest reptiles and amphibians from all parts of the world are solicited. Skins of mammals and birds will be very acceptable.

UNIVERSITY LIBRARY AND READING ROOM.

The University Libraries contain about 5,000 volumes—many of them quite costly and rare—of the representative, and, intrinsically, most valuable books in each of the great departments of literature and science. In science, only the latest and best have been chosen, the rapidly progressive character of some of the sciences having rendered many books valuable twenty-five years ago, now almost obsolete. In literature, those authors whom the verdict of ages has approved are well represented. Students will find the best cyclopedias, lexicons and maps, as well as manuals of special sciences, on the shelves. The scientific books are, many of them, exhaustive, and fully sufficient for the demands for any special or post-graduate course.

THE READING ROOM.

The best weeklies, monthlies and quarterlies of England, France, Germany and America come regularly to the table of the reading room attached to the Library. These, together with the books of the Library, are daily accessible for reading and reference, to all the students of the Institution.

ORDER.

I.

IN CHAPEL.

Each student, at the beginning of each term, will be assigned to a seat in the Chapel, which he will be expected to keep for the term. Perfect decorum and entire abstinence from whispering, reading and all overt demonstrations of approval or disapproval, will be required. Students will stand during prayer. At all Chapel exercises students are expected to be in their seats when the bell ceases to ring.

II.

COLLEGE BUILDING.

No student will be allowed to remain in the halls during recitation hours. At the ringing of each successive bell the classes will be dismissed, and will proceed, without delay, to the room of the next recitation. Students not reciting, unless expressly permitted to study elsewhere, will be seated in one of the rooms assigned for the purpose.

III.

COLLEGE GROUNDS.

Students are not permitted to remain on the Campus, even for study, during recitation hours; and any loitering or playing in the Campus within that time will be considered highly disorderly.

IV.

CHURCH.

Students are required to attend church on each Lord's day morning.

V.

UNEXCUSED ABSENCES.

An aggregate of five unexcused absences from class, chapel or church will bring a student before the Faculty for reprimand, and ten such absences will sever his connection with the University. Absences from classes on account of absence from town will not be excused by the Professor, unless the student presents a permit for such absence signed by the President.

VI.

ADJOURNMENT OF LITERARY SOCIETIES.

From the first of December till the first of April the Societies will not continue in session later than 10 P. M.; during the rest of the year, not later than 10:30 P. M.

COLLEGE EXAMINATIONS.

I.

DAILY CLASS.

The daily examinations of lessons will be conducted according to the best judgment of the Professor in charge. Careful attention will be given in all cases to secure the use of correct words and sentences. The prime objects of the recitation will be to test the student's preparation, and to develop his logical ability and capacity for expression.

II.

TERM.

At the close of each term all the classes will be examined on the branches pursued during the term. These examinations will be entirely written, or partly written and partly oral, as the Faculty may determine. They will always be open for the attendance of visitors; the aim, however, will not be to make them a source of entertainment to visitors, but a rigid test of the student's knowledge. A student, however, will be exempt from examination if he has a class-grade of ninety or more, and has no marks of tardiness or absence, either excused or unexcused. Such marks will be counted, in the case of all students, from the second day of the term till the close.

III.

SENIOR.

The Senior class will be examined on the studies of the Senior year, three weeks before Commencement Day.

COLLEGE RECORDS.

I.

MATRICULATION.

In the Matriculation Book of the University each student will record his name and age, and the name and postoffice address of his parent or guardian.

II.

DAILY.

In a Class Book, kept by each Professor, will be entered, daily, a record of the proficiency and attendance of each member of the class, from which his class-standing will be determined.

III.

TERM.

From his class-standing, and the result of his examination at the close of each term, his final standing will be determined, which will be entered on the University Record for future reference. An unexcused absence will be counted as zero in making up the class standing. Class-standing and examination grade will be rated in the ratio of two to one.

IV.

TERM REPORTS.

During the last week of each term a report of attendance and proficiency of each student will be prepared and sent to the parent or guardian.

DEGREES.

I. The degree of Bachelor of Arts is conferred on students who complete the studies in the course of Arts and pass examination in the same.

II. The degree of Bachelor of Science is conferred on students who complete the studies in the course of Science and pass examinations in the same. This degree may be conferred also on students in special studies, whenever the special work done shall be deemed by the Faculty a full equivalent for the part of the Scientific course which may have been omitted.

III. The degree of Bachelor of Philosophy is conferred on students who complete the studies in the course of Philosophy and pass the examinations in the same.

No Bachelor's degree will be conferred on any person who may not have studied at least one year in this University.

IV. (1) The degree of Master of Arts, Master of Science, or Master of Philosophy will be conferred on any student who shall have taken the corresponding Bachelor's degree at this University, on the following conditions: (a) When each student shall have pursued a Post-Graduate course of study for one year under the direction of the Faculty, have passed a satisfactory examination, and have presented an approved thesis on some one of the subjects chosen for examination; or (b) When, after not less than three year from the time of receiving the Bachelor's degree, such student shall have

given satisfactory evidence of having been engaged in some literary or professional pursuit, and shall present to the Faculty an approved thesis on some subject of research. (2) Any of the above-named Master's degrees may be conferred on any person who may have taken the corresponding Bachelor's degree at any other institution authorized by law to confer such degree, when he shall have given to the Faculty satisfactory evidence of scholarship, have pursued a Post-Graduate course of study under the direction of the Faculty, and have presented an approved thesis on some one of the subjects chosen for examination.

V. The degree of Doctor of Philosophy will be conferred on graduates of this University or of any other institution authorized to confer Bachelors' degrees, who, by special study in some department of Science, Literature, or Philosophy, may have obtained eminence as original investigators, and shall present to the Faculty a meritorious thesis based on such investigations.

VI. The honorary degree of A. M. and LL. D. will be conferred occasionally on persons who, in addition to possessing fair scholarship, may have obtained eminence in some pursuit or profession.

The above degrees will be conferred by the Board of Directors, upon the recommendation of the Faculty of the college to which the candidate belongs. A fee of ten dollars must accompany the application for the second, or for any honorary degree, which will be returned if the degree be not conferred.

DIPLOMAS.

When a degree has been conferred, a diploma will be presented without further charge.

DEGREES CONFERRED.

The degree of Doctor of Laws was conferred upon A. I. Hobbs, and that of Master of Arts upon Lewis Morgan.

In the Oratorical Contest of April 8, 1886, B. F. Daily was awarded the First Prize, and John C. Morrison the Second.

--------------	-------

Tuition fees in College and Preparatory School may be paid in interest-scrip or cash. Other fees, cash. Scrip can always be obtained for a small per cent. of its nominal value, so that the aggregate of fees, per term, need not exceed ten dollars. Term fees must be paid before admission to recitations.

SCRIP.

Scrip is sold in the University office at $12\frac{1}{2}$ per cent. of its nominal value—\$6 of scrip for 75 cents in currency. This is scrip accruing on the capital stock of the late Ovid Butler. It is sold by order of the trustees of this stock, and all the proceeds of such sales are expended in the purchase of books for the University Library. To students preparing for the ministry, this scrip is supplied without charge.

BOARDING.

Board can be had in the best private families for \$3.50 to \$4.50 per week. Students who "club" or rent rooms can live comfortably on one-half the above rates; and houses, or rooms in houses near the University, can be had at low rates. Quite a number of large, new houses can be rented.

THE BOARDING HALL.

This building is of brick, tastefully and substantially built, and sufficient for the accommodation of sixty resident students; and its dining-hall large enough to seat at its tables nearly as many more. Students are here boarded *at cost*, and at the lowest cost compatible with wholesome living. This we are enabled to do on account of the average number—above sixty—and the purchasing of goods at wholesale prices. The average cost for the year has been \$2.25 for table board and 40 cents per week for room rent.

Each room is furnished with stove, bedstead, mattress, table, chairs, and wardrobe, the student furnishing whatever else he may need.

Students may room at other houses and take their meals at the Hall; many young men have found it convenient to do so. Those who live near and who go home on Friday to return on Monday, are allowed a proportional reduction of price.

LOCATION AND BUILDINGS.

The College of Literature, Science, and Arts is situated at *Irvington*, a suburb of Indianapolis, four miles east of the city, on the Pittsburg, Cincinnati & St. Louis, and the Cincinnati, Hamilton & Indianapolis Railways; it is also connected with Indianapolis by street cars, making trips every hour. Irvington is tastefully laid out among forest trees, with well graveled streets and walks. It has two churches—Christian and Methodist—a fine public school building and a graded school of high order. It is a healthy locality, free from saloons and places of amusement. The University building large, new, and supplied with every convenience.

REMARKS.

The Preparatory Course occupies two years and is preparatory to college studies. The three College Courses are designed to permit and limit elective studies; they are co-ordinate and equally difficult, and are offered to both ladies and gentlemen.

Students are not *required* to take one of these courses, but may take a special course, entering any class for which, in the judgment of the Professor, they are prepared; the scheme of recitations will not be varied, however, to suit such special students. It is much better for the student to choose some regular course.

Young men studying for the ministry are permitted to substitute, in the Junior Year of the Classical Course, Hebrew for German or French. With such students the Junior Greek will not be optional.

Post-graduate courses of study will be arranged by the professors of the respective departments, subject to the approval of the Faculty. Such courses will be equivalent to three daily recitations during the session.

STUDENTS.

GRADUATES OF 1885.

RICHARD F. BIGGER.....	(P.).....	Indianapolis.
ARTHUR V. BROWN	(P.).....	Gallaudet.
EDMUND H. HINSHAW.....	(C.).....	Greensboro.
JOHN ARTHUR KAUTZ.....	(C.).....	Andrews.
CHARLES ALMUS MARSTELLER.....	(P.).....	Lafayette.
LOURETTA EVA MORGAN.....	(P.).....	Irvington.
ELECTA MURRY.....	(P.).....	Indianapolis.
DORA ALMA PENDLETON.....	(P.).....	Nineveh.
FANNIE M. PHILLIPS.....	(S.).....	New Castle, Pa.
ORAN M. PRUITT.....	(C.).....	Armstrong.

POST-GRADUATES OF 1885.

ALBERT MUNSON CHAMBERLAIN, A. M.....	Fairfield, Neb.
GRACE GIDDINGS JULIAN, P. M.....	Irvington.
CAREY E. MORGAN, A. M	Arcadia.
JOHN FRANCIS STONE, S. M.....	Indianapolis.
MATTIE WADE, P. M.....	Columbia, Mo.

POST-GRADUATE STUDENTS.

JOHN ARTHUR KAUTZ.....	(C.).....	Andrews.
DORA ALMA PENDLETON	(P.).....	Nineveh.
ORAN M. PRUITT.....	(C.).....	Armstrong.

SENIOR CLASS.

ORDINANCE AND BY-LAWS
FOR THE
ORGANIZATION AND GOVERNMENT OF THE COLLEGES
OF
BUTLER UNIVERSITY.

ARTICLE VIII.

SECTION 1. Students of both sexes shall be entitled to admission into this College. Every applicant shall be of good moral character, and if from another college shall produce evidence of honorable dismissal therefrom. When application for admission is made, the student, after reading the By-Laws pertaining to students, shall then sign his or her name in a register kept by the Secretary of the Board, stating his or her age, and the name and address of parent or guardian, under a caption, in the following words: "Having carefully read the By-Laws pertaining to students of Butler University, I do hereby subscribe myself student thereof; and I do hereby solemnly promise, during my connection with it, that I will faithfully observe and obey its laws, rules and regulations." All fees, whether matriculation or term fees, must be paid in advance and before admission and recitation.

SEC. 2. After matriculation the student shall select, with the advice and consent of the Faculty, at least three daily recitations, exercises or lectures. He shall be diligent in study, punctual in attendance on class, at examinations, and on all other exercises required. Having entered a class or course of study, the student shall not leave it without the consent of the President and the Professor in charge of the class.

SEC. 3. No student is allowed to frequent any gaming-house or saloon, to use intoxicating drinks, to indulge in profane language, to desecrate the Lord's day, or to do anything contrary to good order and good morals.

SEC. 4. All injury to the grounds or buildings is prohibited, and for every offense the amount of damage may be recovered in any court of competent jurisdiction.

SEC. 5. No student is permitted to neglect the call of the President, or of any Professor under whom he may be placed, but must attend without delay, and must obey the directions of the President, or Professor of the department to which he belongs.

SEC. 6. Every student must pay to the Treasurer of the Institution all fees,

finer or dues belonging to the College, and he shall not be entitled to a diploma if in arrears to the corporation.

ARTICLE IX.

OF DISCIPLINE.

SECTION 1. The discipline of the University is confined to the Faculty, under the provisions herein contained. As far as practicable it shall be parental, and all severe and disgraceful punishments shall be avoided, and appeals addressed to the reason and conscience. But to maintain good order and secure the very important object for which the Institution was founded, the Faculty may inflict, at their discretion, according to the character of the offense, any of the following penalties:

1. Private admonition.
2. Public admonition.
3. Suspension for a time (at the discretion of the Faculty).
4. Expulsion.

No student shall be publicly suspended or expelled without an opportunity of being fully heard in his or her own defense; and in all cases of expulsion the party expelled may appeal to the Board within thirty days, in which case the action of the Faculty shall not be final until confirmed by the Board of Directors as soon as they can be called together. But whenever the Faculty are satisfied that, owing to habitual idleness, profanity, or any other cause, the presence of a student in the University is unfavorable to its prosperity and the welfare of other students, they may suspend him or her privately or require the parent or guardian to remove such student from the Institution. In all cases of suspension or expulsion, the delinquent shall forfeit the fees for the remainder of the terms.

SEC. 2. The Faculty may, from time to time, make such prudential regulations pertaining to the social intercourse of the sexes as they may deem expedient.

ARTICLE X.

All literary societies in the College shall be held as integral parts thereof. They shall be subject, in their organization and management, to such rules and regulations as the Faculty may deem expedient for their welfare, and for the interests of the College. No society or organization shall be formed in the College without the consent of the Faculty.
