THE
ANNUAL CATALOGUE
OF
BUTLER UNIVERSITY,

IRVINGTON, IND..

FOR THE

THIRTY-SECOND SESSION,

1886-'87.

WITH ANNOUNCEMENTS FOR 1887-'88.

INDIANAPOLIS:
CARLON & HOLLENBECK, PRINTERS AND BINDERS.
1887.

CALENDAR.

ANNOUNCEMENTS FOR 1887.

Athenian Exhibition,	Friday, 8 P. M., June 10.
Baccalaureate Address, by President Benton,	Sunday, 4 P. M., June 12.
Philokurian Exhibition,	Monday, 8 P. M., June 13.
Mathesian Exhibition,	Tuesday, 8 P. M., June 14.
Demia Butler Exhibition,	Wednesday, 10 A. M., June 15.
Pythonian Exhibition,	Wednesday, 8 P. M., June 15.
Class Day,	Thursday, 10 A. M., June 16.
Field Sports,	Thursday, 2 P. M., June 16.
Alumni Reunion,	Thursday, 8 P. M., June 16.
Commencement,	Friday, 9 A. M., June 17.

ANNOUNCEMENTS FOR 1887-'88.

FINAL EXAMINATIONS.

Senior Examinations close (1888)	Friday, May 25.
Undergraduate Examinations close (1888)	Tuesday, June 12.

ANNIVERSARIES.

Mathesian,	May 5.
Pythonian,	October 19.
Philokurian,	November 6.
Athenian,	May 27.
Demia Butler,	June 10.

HOLIDAYS.

National Thanksgiving Day, and the Friday following.
Christmas—New Year's, inclusive.
Founders' Day, February 7.
Washington's Birthday.

MEETINGS OF DIRECTORS.

Annual Meeting, Tuesday of Commencement Week, June 12, 1888.
Quarterly Meetings, second Tuesday of January, April, July and October.

TERMS.

First Term begins Tuesday, September 13; closes Friday, December 23.
Second Term begins Tuesday, January 3; closes Friday, March 23.
Third Term begins Tuesday, April 3; closes Friday, June 15.
Commencement, Friday, June 15.

ORGANIZATION OF THE UNIVERSITY.

The founding of an institution of learning of the highest grade began to be discussed as early as 1841, in the general conventions of the Christian churches in Indiana. In 1847 a definite resolution was adopted, which committed them to this work. After a full canvass of the state, in 1849, in order to ascertain the views of those interested in the undertaking, it was decided to build such an institution in Indianapolis, under the name of Northwestern Christian University.

A charter was obtained from the Legislature, both liberal and comprehensive, and fitted to promote the purposes of its projectors. The charter went into effect January 15, 1850, and the University was formally opened November 1, 1855. The charter provides for a joint stock corporation, the shares of whose stock is fixed at one hundred dollars each; on which, when paid up, or when interest on the same is regularly paid, the stockholder receives six per cent. in tuition.

The minimum amount of stock was fixed at \$75,000, and the maximum at \$500,000. The minimum amount was obtained in about eighteen months, and then the Commissioners, under the charter, proceeded to erect a substantial building, and to organize the various departments and courses of study.

In 1873 a proposition was made to remove the University to Irvington, a beautiful suburb of the city, and was formally accepted; and in the fall of 1875 instruction of the College classes was begun in the new building.

The change in the name of the University was made February 22, 1877, after full deliberation by the Board of Directors. They adopted the name "Butler University," in honor of him who had given largely to its endowment, and who for twenty years had given a large part of his time to its interests.

This change does not affect any chartered obligation of the University in respect to property, graduates, or its purposes, all of which have been determined by a legislative act and the recorded resolutions of the Board of Directors.

BOARD OF DIRECTORS.

HON. JOS. I. IRWIN,	Columbus.
HOWARD CALE, ESQ.,	Indianapolis.
ELD. JOHN C. MILLER,	Nineveh.
P. H. JAMESON, M. D.,	Indianapolis.
JOHN S. DUNCAN, ESQ.,	Indianapolis.
ELD. B. M. BLOUNT,	Irvington.
CHAUNCY BUTLER,	Indianapolis.
HON. E. S. FRAZEE,	Orange.
ELD. U. C. BREWER,	Danville.
HON. J. G. ADAMS,	Frankfort.
ELD. D. R. VAN BUSKIRK,	Indianapolis.
A. W. BRAYTON, M. D.,	Indianapolis.
HON. JNO. C. ROBINSON,	Spencer.
H. U. BROWN,	Indianapolis.
M. A. MORRISON,	Frankfort.

COMMITTEES.

<i>Finance and Auditing.</i>		
E. S. FRAZEE.	P. H. JAMESON.	CHAUNCY BUTLER.
<i>Buildings and Grounds.</i>		
JOS. I. IRWIN.	B. M. BLOUNT.	H. U. BROWN.

<i>Judiciary and Claims.</i>		
JNO. S. DUNCAN.	JNO. C. ROBINSON.	J. G. ADAMS.
<i>Boarding Hall.</i>		
B. M. BLOUNT.	H. U. BROWN.	T. M. IDEN.

OFFICERS OF BOARD.

ELD. B. M. BLOUNT,	<i>President.</i>	Irvington.
PROF. T. M. IDEN,	<i>Secretary.</i>	Irvington.
PROF. SCOT BUTLER,	<i>Treasurer.</i>	Irvington.

OFFICERS
OF
VERNMENT AND INSTRUCTION.

ALLEN R. BENTON, LL. D., PRESIDENT,
Professor of Mental Science and Biblical Literature.

WILLIAM M. THRASHER, A. M.,
Professor of Mathematics and Astronomy.

HARRIET NOBLE, A. M.,
Demia Butler Professor of English Language and Literature.

SCOT BUTLER, A. M.,
Professor of Latin Language and Literature.

OLIVER P. HAY, A. M.,
Professor of Chemistry and Natural History.

HUGH C. GARVIN, A. M.,
Professor of Modern Languages and Literature.

DEMARCHUS C. BROWN, A. M.
Anderson Professor of Greek Language and Literature.

THOMAS M. IDEN, P. M.,
Adjunct Professor in the Preparatory Department.

T. M. IDEN, *Librarian.*

L. C. WILSON, *Janitor.*

A. M. WESTON, *Sup't of the Boarding Hall.*

GENERAL STATEMENTS.

The College of Literature, Science and Arts embraces four years of study in the regular classes. Three courses of study are offered to students, each requiring the same time and equal labor. These courses are the Classical, the Philosophical, and the Scientific.

Students having certificates of graduation from High Schools, whose courses of study have been approved by the State Board of Education, will be admitted to the Freshman class without examination. In Greek, however, such students are usually conditioned; in which case the student is assisted in bringing up that study.

Graduates of the Preparatory school of the University pass without further examination into the Freshman class, corresponding to their Preparatory course.

Students desiring to enter the University for *special* studies will be admitted to classes for which they, in the judgment of the Professor in charge, may be fitted to enter. If possible to enter one of the regular courses, it is usually better for the student to do so.

Graduates who have received the Bachelor's degree will, on application, be assigned a course of advanced study leading to the Master's Degree.

Women are admitted to all the classes of the University, subject to the same conditions and enjoying the same educational privileges as men.

Text-books are furnished at the University, and are sold to the students at publishers' prices.

DEPARTMENTS OF STUDY.

I.

MENTAL AND MORAL SCIENCE, AND BIBLICAL LITERATURE.

A. R. BENTON, *Professor.*

I. Instruction in Psychology is given by means of lectures, and a text-book. Lectures are given in order to introduce new topics, not treated in the text-book, or to give more ample discussion to subjects but partially treated by the author. Class discussions on controverted points are encouraged, and essays are required. Haven is used as a text-book. A course of lectures on the History of Philosophy is delivered the second term of the Senior year—three lectures per week.

II. Moral Philosophy is studied during the third term of the Senior year. Lectures accompany the text-book, thus securing a full discussion of the subject. The text-book used as the basis of instruction is Haven.

III. The Freshman and Sophomore classes recite in the Bible two hours each per week. The Freshman class study the Old Testament—the first term, the Pentateuch; the second term, Joshua, Judges, and the books of Samuel; the third term, selected portions of the Hebrew Scriptures. Instruction in this department is by carefully prepared lectures, and students are required to study with care those portions of Scripture embraced in the lectures. This method secures a systematic development of Bible history and doctrines.

In the Senior year the Evidences of Christianity are studied, with full exposition of the various questions of modern skepticism. The text-book in this subject is Everest's *Text-Book of Christian Evidence*.

IV. Logic and Political Economy are taught in this department; also a course of lectures on the Constitution of the United States is given, embracing the history of the formation of the constitution and an analysis of our form of government. Hill's *Jevons* is used as a text-book in Logic. Gregory or Walker in Political Economy.

II.

PURE AND APPLIED MATHEMATICS.

W. M. THRASHER, *Professor*.

In the Classical and Philosophical courses, Mathematics will embrace Arithmetic, Algebra, Geometry, Trigonometry, and their applications to Mechanics and Astronomy.

In the Scientific course will be given, in addition, a complete course in Analytical Geometry, Differential and Integral Calculus, and Analytical Mechanics.

Requisites for entering the Freshman year—Arithmetic and Wentworth's Algebra completed, or an equivalent.

The first Preparatory class will begin Algebra (Wentworth) the third term.

First Term in the second year of *Preparatory Course* will be devoted to chapters 1st to 8th, inclusive. Second Term—Chapters 9th to 18th, inclusive. Third Term—The work completed.

Freshman Year.—First Term—Wentworth's Geometry, five books. Second Term—Books 6th to 8th, inclusive. Third Term—Wentworth's Plane Trigonometry and Surveying.

Sophomore Year (Scientific).—First Term—Bowser's Analytical Geometry, plane and solid. Second Term—Bowser's Differential and Integral Calculus. Third Term—Bowser's Analytical Mechanics.

Junior Year (Scientific).—First Term—Bowser's Analytical Mechanics, finished. During the Second and Third Terms they will complete Silliman's Physics.

(Classical and Philosophical).—Text Book—Silliman's Physics. Classical and Philosophical students will devote the First Term to Silliman's Mechanics. They will then be joined by the Scientifics, at the beginning of the Second Term, and the Physics will be completed by the three classes together during the remainder of the Junior year.

Senior Year.—First Term—The necessary formulæ of Spherical Trigonometry will be mastered. Newcomb's Treatise on Astronomy will be studied during the Third Term.

SPECIAL WORK.

Students desiring a more exhaustive mathematical knowledge than is possible in the general scheme, can arrange a course of one or two years in Theory of Equations, Modern Geometry, Circular Functions, Determinants, Analytical Geometry in plane and space, Calculus, Mechanics, and Theoretical Astronomy.

The course and text-books can be determined by letter or personal consultation with the Professor of this department.

III.

ENGLISH LITERATURE.

HARRIET NOBLE, *Professor.*

Before entering the Freshman class, the student must be well grounded in Grammar and the elements of Rhetoric; and must write off-hand—and correctly—a composition on some familiar author.

FRESHMAN YEAR.—Twenty-one of *Guest's Lectures on the History of England*; some of *Hale's Longer English Poems*; Shakespeare's *Julius Cæsar*.

SOPHOMORE YEAR.—*Guest's Lectures* completed.

JUNIOR YEAR.—*Minto's Prose Manual* in connection with the critical study of the styles of De Quincey, Macaulay, Carlyle and Bacon.

SENIOR YEAR.—First Term—Critical study of English poets. Second Term—History of English Literature through Elizabethan era. Third Term—Same continued.

Throughout the course the student is exercised in composition on biographical, historical and literary themes.

Essential books of reference: *Green's History of the English People*, a *Student's Atlas*, and an unabridged dictionary.

IV.

LATIN LANGUAGE AND LITERATURE.

SCOT BUTLER, *Professor.*

Students in Science take only the Preparatory course in Latin; others, the College course also.

Applicants for admission to advanced classes must pass examination on work that precedes.

Following are text-books used: Chase & Stuart's Classical Series, Allen & Greenough's Grammar, Allen's Latin Method, Allen's Latin Composition, Leighton's History of Rome Bender's Roman Literature.

Following are books of reference required: White's Junior Student's Latin English Lexicon, Smith's Classical Dictionary, Long's or Ginn & Heath's Classical Atlas, Ramshorn's Latin Synonyms.

First Preparatory class have Grammar and easy exercises.

Second Preparatory class review Grammar work of year preceding, finish Part First of Allen's Composition, and read three books of Cæsar's Commentaries, and two of Cicero's Orations Against Cataline.

Freshmen have Latin Composition and Roman History throughout the year, read three of Cicero's Orations, and four books of Virgil's *Æneid*.

Sophomores have Latin Composition through the first term, Roman History (the Empire) and History of Literature during the second and third terms; read Livy one term, Horace two terms.

Juniors read selected parts of Cicero's Tusculan Disputations, Old Age, Friendship, and Dream of Scipio.

V.

THE GREEK LANGUAGE AND LITERATURE.

D. C. BROWN, *Professor.*

For admission to the Freshman class, students will be required to pass an examination on all the general principles of Greek Grammar except Prosody, on Jones' Greek Prose Composition or Leighton's or Boise's Lessons in Greek or an equivalent (the English exercises to be translated into Greek with the accents), and one book of Xenophon's Anabasis.

The Preparatory class will use Leighton's Greek Lessons, and Hadley & Allen's Greek Grammar; will study Jones' Greek Prose Composition, and Xenophon's Anabasis one term.

The Freshman class will read the Anabasis two terms, and Homer's Iliad the third term. A daily drill in Greek Prose Composition (Jones) will be continued through the year. Particular attention will be given to prosody and scanning during the study of Homer, and to the History of Greece (Smith) from the earliest period to the end of the Persian wars, including discussions on the origin of Homeric Poems.

The Sophomore class will read Homer (Boise or Keep) the first, Thucydides the second, and Plato the third, term. They will be required to study the History of Greece from the close of the Persian wars to the close of the Peloponnesian war; also Grote's chapter on Socrates, and Seeman's Mythology. Special attention will be given to securing an elegant English version of the authors read.

The Junior class will read Demosthenes de Corona (D. Ooge) during the first term, and a Greek drama of Æschylus, Sophocles, Euripides or Aristophanes during the second term. It will be the constant aim in reading these authors to express their meaning in concise and vigorous English. The History of Greece during the Macedonian supremacy will be studied. Twice a week during the third term the History of Greek Literature will be taught, partly by means of a text-book and partly by lectures. Select passages in various authors not previously read may be given the class for translation.

BOOKS OF REFERENCE.

Every student in the College classes should be provided with a good History of Greece, Classical Atlas, Classical Dictionary and Greek-English Lexicon, A. Keith Johnson's Classical Atlas, Anthon's or Smith's Classical Dictionary.

VI.

NATURAL HISTORY AND GEOLOGY.

O. P. HAY, *Professor.*

The instruction in this department is given by means of lectures, recitations, laboratory practice and field work.

The Freshmen of the Scientific course usually devote the first two terms to the study of the Vertebrates, and are taught to identify and describe species and how to make and preserve collections. The third term will be employed in the study of the Invertebrates in anatomical work, or in further investigation of some class of vertebrates. For these purposes the collections of the museum are available; but each student is required to collect a considerable number of species.

Physiology is studied by the students of all the courses during the first half of the Sophomore year. Martin's Human Body is used as the text-book; but in order to give more reality to the students' knowledge of the subject, numerous dissections and preparations of some of the more important organs of some of the domestic animals are brought before the class. The subject of Histology is illustrated by means of a considerable number of well-prepared microscopic slides.

Botany is studied by all the students during the last half of the Sophomore year, the greater part of the third term being devoted to the collection and identification of species of native plants. Each student is required to prepare an herbarium. Bessey's "Essentials of Botany" is used as a text-book, but the subject is further elucidated by lecture, by the exhibition of numerous preparations, and by means of the compound microscope. In the identification of species the works of Gray and Wood are employed.

During the first and second terms of the Junior year the students of the Scientific and Philosophical courses study Zoology. The time is employed in taking a general view of the whole animal kingdom. Meteorology is studied during the third term of the Junior year.

All Seniors enter Geology at the beginning of the first term and continue the study until the close of the second term. LeConte's

Geology is at present taken as a text-book. Care is taken to bring before the class numerous specimens of minerals and rocks, and of the most important fossils of each of the geological ages.

THE MUSEUM.

While the collections of the University are far from being what it is desired they should be, there is yet abundant material for illustrating the sciences of Zoology, Mineralogy and Geology. Some of the materials have been obtained by purchase, some have been contributed by the friends of the institution, and some by the National Museum; while a considerable portion has been collected by the professors who have occupied the chair of Natural History. There is a very fair collection of minerals, including a number of the most important ones. The Paleozoic Age is represented by numerous specimens of rocks and fossils, principally from localities in Indiana. There are also fossils of Cretaceous deposits of Mississippi and Kansas, and Tertiary fossils from Mississippi and elsewhere. Of land, fresh-water and marine shells there are several hundred species. There is a considerable collection of alcoholic specimens of fresh-water and marine invertebrates. The collection of fishes, made partly by Prof. D. S. Jordan, partly by Prof. Hay, and partly the gift of the National Museum, is one of the best in the West. There are also numerous specimens of reptiles, birds and mammals.

VII.

PHYSICS AND CHEMISTRY.

W. M. THRASHER AND O. P. HAY, *Professors.*

In the course of Arts and Philosophy, Physics will occupy the Junior year.

During the first term will be mastered the general properties of matter; principles of motion and force; laws of motion as affected by gravity and other forces separately and combined; theory of machinery; elasticity and strength of materials.

During the second term will be taught hydrostatics and hydrodynamics, followed by the kinetic theory of gases; the theory of undulations in elastic fluids, with applications to sound and the theory of musical instruments. Then follow laws controlling ether waves, with applications to refraction and reflection of light and construction and use of optical instruments.

The third term will be given to the study of heat and applications, and to electricity and magnetism. Lectures on the methods of gener-

ation of electricity and its application to lighting, telegraphy, the telephone and the driving of machinery will be given.

The Scientific Junior course differs from the above only in substituting for the first term's work a more radical treatment of statics and dynamics by the aid of the differential and integral calculus.

The text book for this purpose will be Bowser's Analytical Mechanics. The text-book in Physics will be Silliman's.

Students in each of the three courses will begin Chemistry with the first term of the Junior year, using Youman's Class-book of Chemistry. This term only is required of students who are taking the Classical course; of others, study of Chemistry during the entire year is required. Craft's Qualitative Analysis is used by the student in his laboratory work. The works of Fresenius and others are also to be found in the laboratory. The laboratory is provided with the necessary apparatus and chemicals for the study of Quantitative and Qualitative Analysis.

VIII.

MODERN LANGUAGES.

H. C. GARVIN, *Professor.*

The Philosophic and Scientific courses comprise nine terms of German and three terms of French. In the Classical course French or German is required in the Junior year.

GERMAN.

Second Preparatory.—First Term—Otto's German Grammar four times a week.

Second and Third Terms—Otto's German Grammar twice a week. Reading of easy prose, such as Schmid's *Erzählungen* and Grimm's *Märchen* twice a week.

Freshman.—Reading three times a week and translation out of English into German once a week throughout the year. The reading matter is selected from the following: Schmid—*Ostereier, Rosa von Tannenburg.* Benedix—*Plays.* Riehl—*Geschichten und Erzählungen.* Schiller—*Tell, Jungfrau von Orleans, Maria Stuart.*

Sophomore.—Reading three times a week and translation out of English into German once a week. The reading matter is selected from the following: Goethe—*Hermann und Dorothea, Gespräche mit Eckermann, Iphigenie.* Müller—*Geschichte des deutschen Volks.* Freytag—*Ahnen, Bilder aus der deutschen Vergangenheit.* Lessing—*Nathan der Weise.*

Junior.—Students in the Classical course, who elect German in the Junior year, read with one of the lower classes.

Students in the Philosophical course, who elect German in the Junior year, read *Faust*.

Senior.—Students in the Philosophical and Scientific courses, who elect German in the Senior year, read Schiller's *Ueber die ästhetische Erziehung des Menschen*. Students in the Classical course, who elect German in the Senior year, read with any class that is suited to their advancement.

Throughout the course much attention is given to word-analysis. As much practice in conversation is afforded as can be consistently with earnest class work.

FRENCH.

First Term—Montonnier—*L'Etude du Français*, with oral instruction on the grammatical forms, including the irregular verbs, four times a week.

Second Term—Chardenal—*French exercises*, twice a week. Lacombe—*Petite Histoire du Peuple Français*, twice a week.

Third Term—*Athalie, Cinna*, or other masterpieces.

Senior.—Those who elect French in the Senior year will read Ruy Blas.

EDUCATIONAL AUXILIARIES.

LECTURES.—Lectures are delivered by members of the Faculty, Friday morning, before the whole school; also, Founders' Day is celebrated by an address, and from time to time special lectures are given by persons invited from abroad. It is the purpose of the College authorities to have a course of lectures during the year, on subjects especially useful to those in the Christian ministry.

RHETORICALS.—In addition to the requirements in English literature, as indicated in the various courses of study, critical essays will be required of the several classes on subjects pertinent to their different branches of study.

LITERARY SOCIETIES.—Five Literary Societies are now organized and in successful operation at the University. These are the Mathesian, Pythonian and Philokurian, composed of young gentlemen; the Athenian and the Demia Butler, composed of young ladies.

All these Societies are, by the By-Laws of the University, placed under the supervision of the Faculty.

The Athenian and the Demia Butler receive the care and attention of Miss Noble.

These Societies, properly conducted, are very important agencies in the social and literary culture of the students of the Institution. Well selected libraries, accessible to the members of the Societies, give important additional means of culture. Contributions to them will be thankfully received.

PRIZES.—Members of the Board of Directors offer three prizes to the Sophomore class for excellence in Oratory; and the President offers three to the Junior class.

The prizes are two cash prizes—the first of \$10, the second of \$5—and the third a set of books. The books for 1886-'87 were Macaulay's History of England. The prizes are awarded to the three having the best orations in points of thought, composition and delivery.

The first prize of the Sophomore class was awarded to Thomas C. Howe. Subject—The Common Soldier.

The second, to A. J. Le Miller. Subject—Responsibility for Promulgating Thought.

The third, to Wm. F. Ross. Subject—Socrates.

In this class there were eight contestants. The contest took place December 19, 1886.

The prizes were awarded to the Junior class, in the contest of May 12, 1887, as follows:

The first prize to Hugh T. Miller; subject, The Pioneer. The second, to John C. Morrison; subject, Capital Punishment. And the third, to Frank H. Marshall; subject, Modern Socialism.

The Primary Oratorical Contest, held April 7, 1887, in order to choose a representative to the State Oratorical Contest, resulted in the choice of E. P. Wise. The second, third and fourth in order of merit, and who thus became delegates to the Oratorical Association of the State, were J. C. Smith, H. T. Miller and E. W. Gans, the last named being chosen President of the Association for the ensuing year.

COLLEGIAN.—The Butler Collegian has been published during the year by the students, and has contained orations, essays, and the general news of the University. This publication is intended to foster a literary taste among the students, and it compares favorably with other publications of this class.

COLLECTIONS IN NATURAL HISTORY AND GEOLOGY.—The Cabinet of the University now consists of the following collections:

1. A collection of fossils, minerals, marine shells, etc., purchased of Mr. W. D. Frazee, of Santa Barbara, California. This, with a similar collection of fossils presented by Mr. Van Tuyl, of Ohio, affords a very

complete illustration of the rocks and fossils of the different geological ages. The species found in this State are especially well represented.

2. Collections of the marine animals of the coast of New England, made by Professor Jordan, at Cape Cod, and at New Haven, Conn., by Professor Hay.

3. A collection of about one hundred and fifty species of fishes, preserved in alcohol, representing very completely the fish fauna of the Ohio valley and the great lake region.

4. A collection of about four hundred species of land and fresh water shells.

5. A collection of about four hundred and fifty species of marine shells.

6. A number of skins of birds and mammals.

7. A small herbarium.

8. A very considerable number of stone implements and other specimens illustrative of Ethnology.

9. A collection of reptiles, fishes, etc., made by Professor Jordan and Mr. Gilbert in the Allegheny region of the Southern States during the scientific expeditions of three summers. This collection is of much importance, as it includes the original types of upwards of fifty new species described by Professor Jordan in the Annals of the New York Lyceum of Natural History and the Bulletins of the United States National Museum.

10. A collection containing most of the species of Reptiles and Amphibians of the Mississippi Valley.

11. A collection of marine animals of the coast of North Carolina, obtained by the scientific expedition of 1879, at Beaufort.

12. A large series of marine fishes—duplicates procured from the United States National Museum. Of these more than one hundred and thirty species have been received.

13. A collection of fishes and reptiles made during the year 1880 in Mississippi by Professor Hay. This collection includes the types of a number of new species.

14. A collection of cretaceous and tertiary fossils, made also in Eastern Mississippi by Professor Hay.

15. A second collection of fishes made by Professor Hay in Western and Central Mississippi, during the year 1881.

16. A collection of geological specimens made in Northern Michigan by Professor James A. Young.

17. A collection of reptiles and fishes made during the last season in Florida, by H. T. Mann and D. M. Davison.

18. A collection of serpents made partly in Indiana and partly in Mississippi, by the late Charles Jameson, of Indianapolis.

19. A considerable alcoholic collection of invertebrates, including many marine and fresh water crustaceans, echinoderms, mollusks and worms.

In the Department of American Ichthyology, the collection in the possession of Butler University is one of the largest in the West.

Numerous specimens of even the commonest reptiles and amphibians from all parts of the world are solicited. Skins of mammals and birds will be very acceptable.

UNIVERSITY LIBRARY AND READING ROOM.

The University Libraries contain about 5,000 volumes—many of them quite costly and rare—of the representative and, intrinsically, most valuable books in each of the great departments of literature and science. In science, only the latest and best have been chosen, the rapidly progressive character of some of the sciences having rendered many books, valuable twenty-five years ago, now almost obsolete. In literature, those authors whom the verdict of ages has approved are well represented. Students will find the best cyclopedias, lexicons and maps, as well as manuals of special sciences, on the shelves. The scientific books are, many of them, exhaustive, and fully sufficient for the demands of any special or post-graduate course.

THE READING ROOM.—The best weeklies, monthlies and quarterlies of England, France, Germany and America come regularly to the table of the reading room attached to the Library. These, together with the books of the Library, are daily accessible for reading and reference to all the students of the Institution.

ORDER.

ATTENDANCE.--Punctual attendance is required on the opening day of each term, and at all recitations and examinations.

Those who desire to be absent temporarily from the University during the term are required to obtain from the President previous and definite leave of absence. Any permanent departure during term time, without such permission, will be deemed a sufficient reason for refusing an honorable dismissal.

CONDUCT.—Students are largely intrusted with the regulation of their general conduct, under a sense of high personal responsibility to do what is right, and to conform to the special obligations resting on them as students of the University.

Among these special duties are, punctuality at all chapel exercises, quiet and good order in the College building, attendance at church each Lord's day morning, and a careful abstinence from all injury to the buildings and grounds. To these general statements may be added the ordinance of the Board of Directors for the government of the University at the end of this catalogue.

ABSENCES.—An aggregate of five unexcused absences from class, chapel or church will bring a student before the Faculty for reprimand, and ten such absences will sever his connection with the University. Absences from classes on account of absence from town will not be excused by the Professor, unless the student presents a permit for such absence signed by the President.

COLLEGE EXAMINATIONS.

CLASS.—The daily examinations of lessons will be conducted according to the best judgment of the Professor in charge. Careful attention will be given in all cases to secure the use of correct words and sentences. The prime objects of the recitation will be to test the student's preparation, and to develop his logical ability and capacity for expression.

TERM.—At the close of each term all the classes will be examined on the branches pursued during the term. These examinations will be entirely written, or partly written and partly oral, as the Faculty may determine. They will always be open for the attendance of visitors; the aim, however, will not be to make them a source of entertainment to visitors, but a rigid test of the student's knowledge. A student, however, will be exempt from examination if he has a class-grade of ninety or more, and has no marks of tardiness or absence, either excused or unexcused. Such marks will be counted, in the case of all students, from the second day of the term till the close.

SENIOR.—The Senior class will be examined on the studies of the Senior year, three weeks before Commencement Day.

COLLEGE RECORDS.

MATRICULATION.—In the Matriculation Book of the University each student will record his name and age, and the name and post-office address of his parent or guardian.

DAILY.—In a Class Book, kept by each Professor, will be entered, daily, a record of the proficiency and attendance of each member of the class, from which his class-standing will be determined.

TERM.—From his class-standing, and the result of his examination at the close of each term, his final standing will be determined, which will be entered in the University Record for future reference. An unexcused absence will be counted as zero in making up the class-standing. Class-standing and examination grade will be rated in the ratio of two to one.

REPORTS.—During the last week of each term a report of attendance and proficiency of each student will be prepared and sent to the parent or guardian, who is earnestly requested to give these reports careful attention, and to notify the Secretary of any failure to receive them.

DEGREES.

I. The degree of Bachelor of Arts is conferred on students who complete the studies in the course of Arts and pass examination in the same.

II. The degree of Bachelor of Science is conferred on students who complete the studies in the course of Science and pass examinations in the same. This degree may be conferred also on students in special studies, whenever the special work done shall be deemed by the Faculty equivalent for the part of the Scientific course which may have been omitted.

III. The degree of Bachelor of Philosophy is conferred on students who complete the studies in the course of Philosophy and pass the examinations in the same.

No Bachelor's degree will be conferred on any person who may not have studied at least one year in this University.

IV. (1) The degree of Master of Arts, Master of Science, or Master of Philosophy will be conferred on any student who shall have taken the corresponding Bachelor's degree at this University, on the following conditions: (a) When such student shall have pursued a Po st

Graduate course of study for one year under the direction of the Faculty, have passed a satisfactory examination, and have presented an approved thesis on some one of the subjects chosen for examination; or (b) When, after not less than three years from the time of receiving the Bachelor's degree, such student shall have given satisfactory evidence of having been engaged in some literary or professional pursuit, and shall present to the Faculty an approved thesis on some subject of research. (2) Any of the above-named Master's degrees may be conferred on any person who may have taken the corresponding Bachelor's degree at any other institution authorized by law to confer such degree, when he shall have given to the Faculty satisfactory evidence of scholarship, have pursued a Post Graduate course of study under the direction of the Faculty, and have presented an approved thesis on some one of the subjects chosen for examination.

V. The degree of Doctor of Philosophy will be conferred on graduates of this University, or of any other institution authorized to confer Bachelor's degrees, who, by special study in some department of Science, Literature, or Philosophy, may have obtained eminence as original investigators, and shall present to the Faculty a meritorious thesis based on such investigations.

VI. The honorary degree of A. M. and LL. D. will be conferred occasionally on persons who, in addition to possessing fair scholarship, may have obtained eminence in some pursuit or profession.

The above degrees will be conferred by the Board of Directors, upon the recommendation of the Faculty. A fee of ten dollars must accompany the application for the second, or for any honorary degree, which will be returned if the degree be not conferred.

DIPLOMAS.—When a degree has been conferred, a diploma will be presented without further charge.

F E E S.

IN COLLEGE.

Tuition fee, \$6 in scrip, costing	per term,	\$0.75
Incidental fee,	“ “	8.00
Apparatus and Library fee,	“ “	1.00

IN PREPARATORY DEPARTMENT.

Tuition fee, \$6 in scrip, costing	per term,	\$0.75
Incidental fee,	“ “	8.00
Apparatus and Library fee,	“ “	1.00
Graduation fee,		5.00

All fees, other than the tuition fees, are paid in money. Scrip can always be obtained for a small per cent. of its nominal value, so that the aggregate of fees, per term, need not exceed ten dollars. Term fees must be paid before admission to recitations.

SCRIP.—Scrip is sold in the University office at 12½ per cent. of its nominal value—\$6 of scrip for 75 cents in currency. This is scrip accruing on the capital stock of the late Ovid Butler. It is sold by order of the trustees of this stock, and all the proceeds of such sales are expended in the purchase of books for the University Library. To students preparing for the ministry, this scrip is supplied without charge.

LOCATION AND BUILDINGS.

LOCATION.—The College of Literature, Science and Arts is situated at *Irvington*, a suburb of Indianapolis, four miles east of the city, on the Pittsburg, Cincinnati & St. Louis, and the Cincinnati, Hamilton & Indianapolis Railways; it is also connected with Indianapolis by street cars, making trips every hour. Irvington is tastefully laid out among forest trees, with well-graveled streets and walks. It has two churches—Christian and Methodist—a fine public school building and a graded school of high order. It is a healthy locality, free from saloons and places of amusement.

UNIVERSITY BUILDING.—The University building is of brick, trimmed with stone, having a frontage of 135 feet, and a depth of 75 feet, containing in all twenty-four recitation rooms, besides halls, corridors, cloak and retiring rooms. It is heated throughout by steam, supplied with water, and lighted by gas; and, in its internal finish and arrangements, thoroughly suited to the purposes for which it was designed. For convenience, commodiousness and comfort, it is all that can be required.

BOARDING HALL.—This building is of brick, tastefully and substantially built, and sufficient for the accommodation of sixty resident students; and its dining-hall large enough to seat at its tables nearly as many more. Students are here boarded *at cost*, and at the lowest cost compatible with wholesome living. This we are enabled to do on account of the average number and the purchasing of goods at wholesale prices. The average cost for the year has been \$2.25 for table board and 40 cents per week for room rent.

Each room is furnished with stove, bedstead, mattress, table, chairs and wardrobe, the student furnishing whatever else he may need.

Students may room at other houses and take their meals at the Hall; many young men have found it convenient to do so. Those who live near, and who go home on Friday to return on Monday, are allowed a proportional reduction of price.

BOARDING.—Board can be had in the best private families for \$3.50 to \$4.50 per week. Students who "club" or rent rooms can live comfortably on one-half the above rates; and houses, or rooms in houses near the University, can be had at low rates. Quite a number of large, new houses can be rented.

THE COLLEGE OF LITERATURE, SCIENCE AND ARTS.

Three courses of study, as seen below, are offered to the students of the University—the Classical, the Philosophical, and the Scientific.

The requisites for admission to the Freshman class are the completion of the studies in the Preparatory Department. Graduates of High Schools, whose course of study is approved by the State Board of Education, are admitted without examination; and if needed, they will be aided in bringing up any language study, on which they may be conditioned.

Also, graduates of the Indianapolis Classical School, conducted by Prof. Sewall, are received without examination.

Applicants for admission must present to the President satisfactory evidence of good, moral character, and, if they come from another college, they must bring a certificate of class standing and of honorable dismissal.

Candidates for advanced standing must give satisfactory evidence, by examination or otherwise, of proficiency in the studies already passed by the class they propose to enter.

Applicants for admission are required to subscribe to the by-laws of the Institution as a pledge of their observance; students must settle with the Secretary and be registered for the classes of each term before taking part in the recitations.

Examinations for admission to the University will be held on the first day of each term.

PREPARATORY DEPARTMENT.

The Preparatory is established to secure accurate and complete preparation for entering the College Classes. Instruction is given this class of students chiefly by the Professors, who have a heightened interest in this work, from the fact that successful instruction in the higher classes depends largely on the preliminary training received in this school.

It is greatly to the advantage of students, who are preparing for College, to receive the instruction of this department.

Also, much valuable time is often lost to the students by pursuing studies in the lower schools which have little or no relation to entering College.

This course of study is also well adapted to those who desire to fit themselves for teaching or for business. To meet the needs of such, Prof. Iden gives instruction in Arithmetic, two terms, and in Book-keeping, three terms.

Students, who enter this Department, are expected to give satisfactory evidence of a knowledge of the "common branches" of an English education; and of this, a teacher's license is usually taken as evidence.

THE ALUMNI OF BUTLER.

Since the first class graduated, thirty-one years ago, about two hundred and fifty Alumni have received degrees from the Literary College of this Institution. They have gone into every State of the Union and into every occupation. Perhaps the Alumni of no other College of equal strength are more widely scattered than those of Butler. A large per cent. of the graduates particularly, perhaps, in the earlier years of its operations, were ministerial students whose life work subjected them to frequent change of residence. The lady graduates have married, and the present name and residence of some of them are unknown.

The classes in the early years of the "sixties" were much broken by the war, and the records for that period are incomplete and unsatisfactory.

It was the custom in the years preceding 1870 to use the initials instead of the christian name. Owing to this custom, the historian who depends upon old catalogues for data will find himself confronted with especial difficulties in the matter of identification. Knowledge of many of the older Alumni is, for such reasons as the above, and for others, beyond the present reach of the Alumni Committee on Catalogue.

Letters and circulars have been sent to all Alumni whose residence could be ascertained, and considerable information has been secured. It is desirable, however, that the committee be informed of changes in residence, and of vital statistics relating to the Alumni. President Benton has authorized the statement that the roster of the Alumni will hereafter be published with each annual catalogue. A persistent and commendable effort will be made to preserve and publicly note the fortunes of those who have been deemed worthy to receive the highest honors which this Institution can bestow. It is therefore urged upon the Alumni, wherever this may find them, and upon their friends, to forward to Professor Thomas M. Iden, '83, Secretary of the University, Irvington, Ind., all information that will aid in locating the Alumni, and in detailing in brief their experiences since leaving Alma Mater. The full name, class, occupation and address are the essentials.

It is particularly desired that the "boys" whose diplomas bear the stamp of the "Northwestern Christian University" will more closely identify themselves with the Alumni Organization of Butler University, of which they are esteemed members, notwithstanding the change in name. A cordial invitation is extended to all graduates of whatever department of the University to join in the annual reunion on Thursday of each Commencement week.

It is not claimed that the appended roll of Alumni is either complete or accurate. It is a compendium of such information as is at the command of the committee after much correspondence.

A glance through the list will reveal some remarkable facts. The ranks of some of the earlier classes are still unbroken, while of others few remain. Many of the living and the dead achieved distinction. The class of '61 was a military class. Every member went into the service. Squires died on the bloody field of Shiloh; Dougherty joined the regular army after the war and is now in charge of an important station on the Pacific Coast; Spahr, as a cavalryman, made a good record. He laid down the sword and scabbard in '65, and is now pursuing the more tempestuous vocation of a lawyer at the State capital. Lockwood is in Chicago. But one member of the class of '70 survives, and his address is unknown. The class of '76 furnishes a lamentable death record. Of seven members four are dead. It was one of the most brilliant classes that ever left the University. Lyster was a preacher of force and most winning manners. His career was cut short and his old associates followed his remains to a quiet graveyard near Thorntown soon after his graduation. Woodward was one of the most promising men that ever left the College. He took a degree at the Virginia University Law School after receiving his diploma at Butler, and entered upon the practice of law at Indianapolis with assurance of success. He removed to New Castle, Ind., and had hardly established himself there when death overtook him. Miss Nannie Cunningham, whose superior mental endowments and gracious manners made her the idol of the class, yielded her beautiful life soon after graduation. Robert Blount, after several years of great success as a preacher, died at his home in Irvington, October 27, 1883, and so the "unseen" holds the majority.

Thus death has played havoc with both the young and old classes. Among the living are many whose careers would, were it not invidious to do so in this connection, deserve extended notice. Next year it is hoped that the salient points in the life of every Alumnus and Alumna may be presented.

It is gratifying to note that of the later classes complete records have been preserved.

ALUMNI.

OFFICERS OF BUTLER ALUMNI ASSOCIATION.

President—CORAM. SMITH, '83, Irvington.

Vice-President—THOS. M. IDEN, '83, Irvington.

Secretary—RICHARD F. BIGGER, '85, Indianapolis.

ORDINANCE AND BY-LAWS
FOR THE
ORGANIZATION AND GOVERNMENT OF THE COLLEGES
OF
BUTLER UNIVERSITY.

ARTICLE VIII.

SECTION 1. Students of both sexes shall be entitled to admission into this College. Every applicant shall be of good moral character, and if from another college shall produce evidence of honorable dismissal therefrom. When application for admission is made, the student, after reading the By-Laws pertaining to students, shall then sign his or her name in a register kept by the Secretary of the Board, stating his or her age, and the name and address of parent or guardian, under a caption, in the following words: "Having carefully read the By-Laws pertaining to students of Butler University, I do hereby subscribe myself student thereof; and I do hereby solemnly promise, during my connection with it, that I will faithfully observe and obey its laws, rules and regulations." All fees, whether matriculation or term fees, must be paid in advance and before admission and recitation.

SEC. 2. After matriculation, the student shall select, with the advice and consent of the Faculty, at least three daily recitations, exercises or lectures. He shall be diligent in study, punctual in attendance on class, at examinations, and on all other exercises required. Having entered a class or course of study, the student shall not leave it without the consent of the President and the Professor in charge of the class.

SEC. 3. No student is allowed to frequent any gaming-house or saloon, to use intoxicating drinks, to indulge in profane language, to desecrate the Lord's day, or to do anything contrary to good order and good morals.

SEC. 4. All injury to the grounds or buildings is prohibited, and for every offense the amount of damage may be recovered in any court of competent jurisdiction.

SEC. 5. No student is permitted to neglect the call of the President, or of any Professor under whom he may be placed, but must

attend without delay, and must obey the directions of the President, or Professor of the department to which he belongs.

SEC. 6. Every student must pay to the Treasurer of the Institution all fees, fines or dues belonging to the College, and he shall not be entitled to a diploma if in arrears to the corporation.

ARTICLE IX.

OF DISCIPLINE.

SECTION 1. The discipline of the University is confined to the Faculty, under the provisions herein contained. As far as practicable it shall be parental, and all severe and disgraceful punishments shall be avoided, and appeals addressed to the reason and conscience. But to maintain good order and secure the very important object for which the Institution was founded, the Faculty may inflict, at their discretion, according to the character of the offense, any of the following penalties:

1. Private admonition.
2. Public admonition.
3. Suspension for a time (at the discretion of the Faculty).
4. Expulsion.

No student shall be publicly suspended or expelled without an opportunity of being fully heard in his or her own defense; and in all cases of expulsion the party expelled may appeal to the Board within thirty days, in which case the action of the Faculty shall not be final until confirmed by the Board of Directors as soon as they can be called together. But whenever the Faculty are satisfied that, owing to habitual idleness, profanity, or any other cause, the presence of a student in the University is unfavorable to its prosperity and the welfare of other students, they may suspend him or her privately, or require the parent or guardian to remove such student from the Institution. In all cases of suspension or expulsion, the delinquent shall forfeit the fees for the remainder of the terms.

SEC. 2. The Faculty may, from time to time, make such prudential regulations pertaining to the social intercourse of the sexes as it may deem expedient.

ARTICLE X.

All literary societies in the College shall be held as integral parts thereof. They shall be subject, in their organization and management, to such rules and regulations as the Faculty may deem expedient for their welfare, and for the interests of the College. No society or organization shall be formed in the College without the consent of the Faculty.
