The prevalence of tattooing

- 25% of young adults have at least one tattoo.
- 12-18 year olds have the most tattoos.
- Men and women are equally likely to have a tattoo.

The electronic tattoo gun made getting tattoos more convenient.

BUT...

They are loosely regulated:

Only 14 States have regulated sanitation, training, and infection control!

Health complications:

- Allergic Reaction
- Infections
- Cancer

Tattoos can be GOOD!

Just Think Before You Ink

1. Check the tattoo parlor’s sanitation procedure
2. Research your tattoo artist
3. Read about the tattooing procedure
