Listen to the night wind gently blowing through the trees.

Duration: ca. 2:45
Listen to the night wind as it sings a melody.

Hear it rush like a mighty chorus, swirling 'round the starry sky.

Hear it whisper through the forest, softly singing a
lullaby.

Listen to the night wind as it whistles at the moon.

Listen to the night wind singing a mysterious tune.
Hear it roar like rolling thunder, clapping leaves on every tree.

Hear it creeping, deep in slumber almost silent, like a dream.
Listen to the night wind as it echoes from afar.

Listen to the night wind as it twirls around each star.
Hear it singing all around you, as it dances with delight. Let the midnight wind surround you, listen for the song tonight.
