

MORE HIDDEN OPPOSITES

R. ROBINSON ROWE
Sacramento, California

In the February 1973 issue of *Word Ways*, Mary Youngquist challenged readers to find opposites (such as GIVE-TAKE) from transposed clues (such as KITE-GAVE). I found it easier to work on her list in reverse -- that is, think of a pair of opposites and then check to see if the transposed letters were present. In this quest, I inevitably came across a number of opposites that she did not use. Here is a fresh batch of fifty scrambled opposites for readers to try and solve. If you give up, the answers can be found in *Answers and Solutions* at the end of this issue.

- | | |
|----------------------------|-----------------------|
| 1. scab aide | 26. far levees |
