## **ANAGRAM QUIZ**

## ANIL Perth, Australia

The clues are definitive anagrams or polyanagrams of the answers. Most are <u>reversible anagrams</u> from up/dn and Word Ways (03-91, 279, 04-274, 05-211) here given in reverse order. Reversible anagrams are pairs that work either way, eg, pat=tap=pat. To be definitions of each other they should be grammatically compatible, as most here are. Answers are out back.
