One of the songs from *Cabaret* reminds us that “money makes the world go ‘round.” The same can be said about the following quiz in which twenty seemingly-unrelated words are presented. Your assignment consists of replacing one letter in each word with another and then anagrammatizing the resulting collection to reveal one of the world’s currencies. To wit, a DOLLAR is the reward for an ORDEAL when “L” supplants “E” and the new letters are suitably shuffled. Don’t miss this golden opportunity to cash in on the dividends which await you here if you submit a perfect paper.
