wherefores 130. hither and yon

A Geography Quiz

T. A. Hall

- [1] CYPRUS. The large island in the lower right of the map of Europe on Euro notes is CRETE. Sadly, CYPRUS was left off.
- [2] You will travel from CYPRUS (the country identified in [1]) to SYRIA. The only other country in the world whose second letter is Y is KYRGYSTAN. The country that calls itself MYANMAR is referred to as BURMA in the aforementioned source.
- [3] The two countries which fit this description are SLOVAKIA and ALBANIA. The former borders on AUSTRIA and the latter on MACEDONIA. SLOVAKIA's other immediate neighbors are CZECH REPUBLIC, UKRAINE, and POLAND, and ALBANIA's are GREECE, KOSOVO and MONTENEGRO. By contrast, all other European countries ending in IA border on at least two other countries ending in IA (e.g. SLOVENIA borders on AUSTRIA and CROATIA). ARMENIA's only IA neighbor is GEORGIA, but my source is not clear on whether or not these countries are in Europe or Asia.
- [4] ZAIRE changed its name to DEMOCRATIC REPUBLIC OF CONGO (known as 'CONGO (KINSHASA)') in 1997. The other two countries are ZAMBIA and ZIMBABWE.
- [5] The country is MALTA, and the language is MALTESE. The other language referred to in question [5] is PORTUGUESE. FAROESE (spoken on the Faroe Islands) does not count as an official language because the Faroe Islands are a territory of Denmark and not an independent nation. Technically speaking, the N suffix in languages like LATVIAN and CROATIAN is a palindrome, but question [5] is operating under the assumption that a palindromic suffix contains two or more letters.
- [6] The language is MALAYALAM (spoken in INDIA). This is probably the longest palindromic language name.
- [7] The languages and the respective countries are: BANGALA (BANGLADESH), BURMESE (BURMA), HINDI (INDIA), PASHTO (AFGHANISTAN), and URDUU (PAKISTAN). (In popular parlance the language BANGALA is called BENGALI, but my source lists it as BANGALA).
- [8] The country is NAURU (an island nation in MICRONESIA in the South Pacific), and the language is NAURUAN.
- [9] Your goal is FRANCE. To get there in a straight line from MALTA (the country identified in [5]), you will travel through ITALY.
- [10] GREECE is the country referred to here. It borders on the AEGEAN SEA. The remaining seven countries with three identical vowels are: CANADA, COMOROS, KAZAKHSTAN, KOSOVO, MOROCCO, PANAMA and SEYCHELLES.
- [11] The one language-country pair in Europe is GERMAN-GERMANY and the Asian example is LAO-LAOS.
- [12] The one country-language pair in Asia satisfying these conditions is NEPAL-NEPALI. There are no European examples.
- [13] The country is MOLDOVA and the language is MOLDOVAN. [Note: Technically speaking, the language referred to here is ROMANIAN, but for geopolitical reasons it is known officially as MOLDOVAN].
- [14] The country is MOZAMBIQUE, and the capital city is PORT-AU-PRINCE (the capital of HAITI).
