s
down.

And it $\Delta - \pi \epsilon \chi \omega \nu$ the earth.

And it imposes.

And it $r^o u^t_s$ the Earth.

Blanching, it purifies and perfects.

So brave the blizzards

And the dirtied slush.

And treasure the immaculate
crystals.

wholly all and each
For

Antonym-ly and then synonym-ly,

liquefy

And it floats down . . .
