down.

And it  $\Delta - \pi \epsilon \chi \omega \nu$  the earth.

And it imposes.

And it  $r^o u^t_s$  the Earth.

Blanching, it purifies and perfects.

So brave the blizzards

And the dirtied slush.

And treasure the immaculate  
crystals.

wholly all and each  
For

Antonym-ly and then synonym-ly,

*liquefy . . . . .*

And it floats down . . .
