

# "PALINDROME" TRANS-3-DELETIONS

TOM PULLIAM  
Edmond, Oklahoma

Three letters can be deleted from PALINDROME in 120 different ways. In "Palindrome and Palindromes" in the August 1989 *Word Ways*, Darryl Francis rearranged ten sets of remaining letters to form words. Here, I present one or more words formed out of 62 remainders. Unlabeled words are found in Webster's Third Edition; inferred forms are indicated with parentheses.

-adm PROLINE	-elm PADRINO w2, POINARD w2, PONIARD,
-adn IMPLORE	PADRONI
-adp MORINEL	-elp MORINDA
-aen MILDORP w2	-emn DIPOLAR, POLARID w2
