

### Feel Theory

*by Rhet Lickliter*

slow, elastic drums  
formless voices  
weightless chants

moving backwards  
feel theory

uncertain clocks  
no season  
no temperature  
no point of view

soft thicket  
silent vegetation  
thick liquids  
new colour fog  
amorphous shadows  
hovering light islands  
migrating planes  
a piece of sphere

relaxful crouching  
muscles,  
swelling limbs  
responding landscapes

inward gestures  
gradual rejuvenation

effective cleansing  
thought collection  
sombre urgency
