NATIONALI-TEASE

STEPHEN SNIDERMAN Youngstown, Ohio

The words we use to refer to people from various countries do not always follow a predictable pattern. Thus, someone from Switzerland is Swiss, from Wales Welsh, and from Holland Dutch. Each sentence below contains the name of a country and an adjective describing the nationality of that country's inhabitants. Letters that are identical in both words have been omitted. In each case the answer is unique.

1.	Someone	irom	_E_MARK is _A_ISH
2.	Someone	from	Y is IAN
3.	Someone	from	O is AN
4.	Someone	from	LAND is TISH
