Many of the new palindromes listed in The Palindromicon II (Jeff Grant and Dan Tilque, Word Ways Monograph Series 6, 2002) will, undoubtedly, find their way into Word Ways. The longer palindromes, especially when they are solid words, have a special appeal due to their sheer length. After reading through The Palindromicon II, however, I found my thoughts dwelling on the more humble, 5-letter, palindromes. Could more be found I wondered and, if so, where? It seemed likely that the Internet might be the answer. Thus began my web search for missing 5-letter palindromic arrangements. I used the search engine Google. The results of the search are given below. The list does not include acronyms, abbreviations, hyphenated words, or phrases. I also exclude the names of web sites per se. Further, I decided to eschew, as possibly too trivial and ephemeral, the names of characters and players in computer games, even though these would have filled a significant number of gaps. During my search, I noticed a substantial number of new 5-letter foreign language palindromes just waiting to be translated. Are there any multi-linguists amongst the readers of Word Ways who aspire to gap-filling and surfing? A warning to anyone who surfs for words - beware of the minefield of spelling mistakes on the web!

Here is my list of 459 new 5-letter palindromes:

AEIEA the name of a Hawaiian girls’ basketball team
AELEA Aelea Christofferson - a past president of the San Francisco Bay Chapter of NAWBO
AEMEA The Island Aemea - a piece of music
AEPEA a place in The Iliad
AESEA Aesea Havili - a Tongan international rugby player
