

IMPORTANT PERMUTATION: APHORISTICAL PAROCHIALIST

STUART KIDD

Blue Mountains, New South Wales, Australia
skiddwiz@hotmail.com

The title and appellation above illustrate the apposite felicity in felicitous apposition of transposals in sets. Anil, Richard Lederer and Susan Thorpe among others, have looked at this area either directly or tangentially in these pages in recent years. My purpose here is to present a robust but necessarily subjective presentation of many curious, delightful, absurd and otherwise interesting examples of the genre.

Special mention should be made of three sets: MARSIPOBRANCHIATA BASIPARACHROM-ATIN (17), the longest known, MEGACHIROPTERAN CINEMATOGRAPHER (15) the longest best-mixed (one bigram [ME/EM] shared in reverse), and **DOCUMENTARILY UNMALEDICTORY** (13), the longest with no common bigram, forward or reversed. All long heterograms such as this one have been highlighted.

The words are taken from a composite of online word lists. I give many thanks to Erik Bernhardsson (www.malfunction.org), Luke Metcalfe (www.orchy.com) and Rick Walton (www.rickwalton.com) for their manipulation of these lists to provide transposal sets.
