

AEIOU IN ORDER—AGAIN!

DARRYL FRANCIS

Frosterley, Bishop Auckland, Durham, England

darrylfrancis@yahoo.co.uk

Popular word puzzle lore has it that there are only two relatively common words having the five vowels AEIOU appearing once each and in order: ABSTEMIOUS and FACETIOUS. Over a dozen other such words and terms were logged in *Language on Vacation* and pre-1998 issues of *Word Ways*. The number of such AEIOU words jumped dramatically in February 1998, though, with the publication of Susan Thorpe's article "AEIOU in Order". Susan's article brought together the previously published AEIOU words, many new finds in Webster's Second Edition and the Oxford English Dictionary, plus many culled from the pages of biological references. Susan's article pulled together a total of 145 AEIOU words.

Susan quoted some words (ARTEMIDORUS, ARTERIOSUS and AVENIOUS) from specialist biological references—yet the first is in Webster's Second, the second is in Webster's Third (in the term BULBUS ARTERIOSUS), and the third is in the OED etymology of AVENOUS. Susan's HARIEOUS is obviously a misprint for HAREIOUS.

Jeff Grant and Susan added 8 items in the May 1988 Colloquy, and Susan added a further 17 in the November 1999 Colloquy, bringing the total to 170.

The list below contains 42 more AEIOU words and terms, bringing the total to 212, a far cry from the two posited by popular word puzzle lore. Many of my words/terms are obsolete spellings, some are proper names, a few are Latin words, some have the AE diphthong, and some are hyphenated or multi-word terms. Each specimen is briefly described, along with details of the source in which the word is found. Undoubtedly further examples could be discovered by an extensive study of gazetteers, medical dictionaries and other repositories of increasingly obscure words and terms.

abjeccioun (Web 3) Middle English spelling of abjection, in etymology of abjection

ale-ioust (OED) 1529 quote at just, a large pot with handles for holding ale

allektioun (OED) obsolete form of election, in 1387 quote at chooser
