

AEIOU Times Three Delicacies

While browsing through some back issues of Word Ways, I noticed in the November 2000 Kickshaws that Dave Morice and Eric Chaikin presented a number of “double pair supervocalics”, words and terms which use exactly two each of the vowels AEIOU. At the end of the Kickshaws item, they wondered “dare we dream of a decadent feast of AEIOU-times-three delicacies?”, and offered a pair of number name examples: FOUR MILLION SIX HUNDRED AND TEN THOUSAND AND TEN and QUATTUORDECILLION FIVE THOUSAND AND TEN. However, both of these are inconsistent in their use of the word AND.

Taking up the challenge of finding some triple AEIOU items, below are the first 40 which I have found. These use a mixture of foreign language names, Roman numerals, punctuation characters and generally unfamiliar terms.

So far, I've not been able to find any quintuple AEIOU terms. The challenge now is to find such a term.
