LONG ONE-SYLLABLE WORDS

JEFF GRANT
Hastings, New Zealand

There are quite a few common 9-letter words pronounced with a single syllable, for instance:
SCHLEPPED, SCHMOOZED (or SCHMOOSED), SCRATCHED, SCREECHED, SCRUNGED,
SCRUNCHED, SPLITCHED, SQUELCHED, STRAIGHTS, STRENGTHS, STRETCHED

Here are some rarer examples, all of which are acceptable in international Scrabble:
SCHLUMPED, SCHMEARED, SCHMEERED, SCHNORRED, SCRAICHED, SCRAIGHED,
SCRAUGHED, SCRITCHED, SCROOCHED, SCWORGLED, SQUINCHED, SQUOOSHD, THRUTCHED

Before moving on to longer examples, let's disallow drawn-out monosyllabic noises and utterances such as the 234-letter cry of anguish (230 A's followed by 4 H's) on the last page of Portnoy's Complaint (1967) by Philip Roth.

BROUGHAMED (broomd) transported by brougham (a one-horse closed carriage), first used in 1854 in Household Words, an English weekly magazine edited by Charles Dickens.

There are no doubt other 10-letter monosyllables that can be added to this list. Now it is time to look at the small, curious collection of longer one-syllable terms, which comprises dialectic and obsolete words, English and part-foreign coinages, and examples of strained verbal inflections and regional pronunciation.

11 Letters

BROUGHAMMED (broom) somewhat dubious double-m variant of broughamed (see 10 Letters), suggested by American poet William Harmon in a competition to find the longest monosyllabic word. [Wiki]

SCHWEPPESED a few years back American actress Uma Thurman starred in a raunchy global TV/cinema campaign for Schweppes soft drinks. The following comment was posted on brandchannel.com [Net] on 6 May 2011:

"[Thurman] is a little more offbeat than her typical characters and certainly more sexed up (or at least Schweppesed up), than normally depicted on screen."

SPLAATCHED variant of 'splatched', splattered. [EDD]

SQUIRRELLED (squerld) stored up for future used. A compressed American pronunciation sanctioned by the Merriam-Webster Online Dictionary. [Wiki, Net]

SCHTROUMPFFED (shtroompf) — the original French name for ‘smurf’ (you know, the cute little blue characters) is schtroumpf, which is used as an all-purpose noun and verb by Smurfs and in imitation of them. The form schtroumpf’d is used in an English translation of an essay by Italian writer Umberto Eco:

"Let us suppose an English speaker of average culture hears a Schtroumpf poet reciting
'schtroumpf’d' lonely as a schtroumpf.'"

However, this is intended to represent the Schtroumpf language rather than English. [Wiki]

STRENGTHEDST — a possible archaic second person singular past tense of the obsolete verb 'strength', to strengthen. For example, the Bible contains the following:

"In the day when I cried thou answeredst me, and strengthenedst me with strength in my soul." (Psalms 138:3)
The 12-letter form strengthedst would be feasible, and indeed does appear (in error) on some websites and in a published book. [Net]
While the -edst ending would usually be pronounced as a separate syllable from the verb stem, it could conceivably be shortened to a single syllable.

STREYNGHTED — another variant of the old word 'strengthened', strengthened. The verbal stem strenghth- is listed in MED, and the following appears in a medieval manuscript held at Durham University Library, England:

"Alexander the grett conqueroure in all his conquest... and stallwardly strenghthed hyme in all vertu." [www.dur.ac.uk (Net)]

13 Letters

SCHTROUMPFFED — a nonce-word based on Schtroumpf, variant of 'schtroumpf', French for 'smurf' (see 12 Letters). The double-f ending is used numerous times as a nickname by people registered on the social networking website Facebook (Net). For example, there is a Schtroumpf Blue, Schtroumpf Amoureux, Schtroumpf Grognon, and Schtroumpf Gourmand, as well as a Cynique Schtroumpf, Grand Schtroumpf, Marie Lola Schtroumpf Allizon, and others. One could easily say after being swamped by all those Schtroumpfes,

"We're just about Schtroumpf’d out!"

STRENGTHEDST — possible Middle English variant of 'strengthened' (see 12 Letters), based on the form 'strengthened' (see 11 Letters), as in 'thou strengthenedst'.

14 Letters

HALFPENNYWORTH (haypath) — as much as is sold for or is worth a halfpenny (haye-nee), a compressed British regional pronunciation. The word is often pronounced and spelt 'ha'porth or 'ha'p'rth (hay-pith). However, in a land where the surname Cholcombeley can be shortened to 'Chumley' and Featherstonehaugh to 'fenshaw', compression to a single syllable is possible, as suggested by the occasional spelling 'ha'p'th'. [Net]

"With the disappearance in the 1980s of the halfpenny..., the English are now denied the rich satisfaction of compressing 'halfpennyworth'

into 'haypath'." [The Mother Tongue, Bill Bryson, 1990]

STREYNGHTEDST — possible Middle English variant of 'strengthened' (see 12 Letters), based on the form 'streynghthed' (see 12 Letters'), as in 'thou streynghthedst'.

295
HALFPENNYWORTHS (*haypths*) plural of 'halfpenny worth' (see 14 Letters).
