

REFLECTIONS

STEVE KAHAN

Hollis Hills, New York

Eleven uppercase letters – A, H, I, M, O, T, U, V, W, X, and Y – have unaltered appearances when they are held up to a mirror. Consequently, any word made up exclusively of these letters is called a *reflection*. Prompts are offered below for your consideration for a dozen such, each of which is comprised of at least six letters. The search for the correct responses is indeed a worldwide endeavor, with stops in HAWAII, OTTAWA, and TAHITI. As you embark, travel safely!
