REMOVING A PAIR OF NON-DOUBLED LIKE LETTERS

SUSAN THORPE
Great Missenden, Buckinghamshire, England
thorped@hotmail.com

In a Kickshaws item entitled The Disappearing Doubles (Word Ways November 2009 p 281), I removed A to Z pairs of doubled letters from a word to form a new word. eg. BONNY – NN = BOY. Here, I again remove 2 like letters from a word to form another word, the difference being that the 2 like letters are separated in the word and not do not appear as a doubled pair. The 2 separated like letters can appear anywhere in the word: beginning / middle / end.

DIANA = DIN
WINDED = WINE
GRUDGE = RUDE
JIMJAMS = IMAMS (jitters)
