PUT IN SOME MORE GOOD WORDS

CHARLES W. BOSTICK
Ashton, Maryland

This is the second of a pair of articles which invites the reader to use his deductive abilities on lists of words; the first article appeared in the August 1979 Word Ways. His task is first to find a common property that the 24 words in a list share, and second to insert the word at the head of this list (given in capital letters) into its proper place within the list.

Be warned that lists 1 and 6 are especially hard because they are so different from the others and from each other. A hint for list 1: there are associated words but they neither precede nor follow the given words. A hint for list 6: all of the words are to be considered as a group.

Answers can be found in Answers and Solutions at the end of the issue.
