

## ANAGRAM QUIZ

ANIL Perth, Australia

The clues are definitive anagrams or polyanagrams of the answers. Most are reversible anagrams from *up/dn* and Word Ways (03-91, 279, 04-274, 05-211) here given in reverse order. Reversible anagrams are pairs that work either way, eg, pat=tap = tap=pat. To be definitions of each other they should be grammatically compatible, as most here are. Answers are out back.
