In the quadratic, $x = \text{FUN}$, so $1x\text{FUN}^2 + \text{NOW}x\text{FUN} = \text{SAYING}$.

Wordnim and Grundyword Jeremiah Farrell and David Wright

For Grundyword the nim-sum of the nim values of the four words is $0 \oplus 1 \oplus 2 \oplus 0 = 3$. This is non-zero so you must be able to play so that you leave your opponent with a zero. The only way to accomplish that here is to change the value 2 to a 1. Therefore, break LLAMA to a 3-2, say ALL-AM.

Water, Water Everywhere PEARL, PEAR, PEA

Order, Please By length, the words progress from four to fifteen letters: mayo, octet, jangle, apricot, julienne, febrifuge, junctional, marshmallow, augmentation, novelizations, decompensation, septuagenarians. Since the first three letters of each word spell out the standard three-letter abbreviation of a month, the words can be arranged in monthly order: JAnGLE, FEBrifuge, MARshmal-low, APRicot, MAYo, JUNctional, JULienne, AUGmentation, SEPTua-genarians, OCTet, NOVelizations, DECompensation. Try reading the second list aloud to someone and ask if they can figure out what the words have in common. It's more difficult to decode the list when it's spoken.
