Here's what I find so attractive in you:  
Honesty, honestly  

Honesty, You're kind  

Honesty honestly you thought it was a hook up  
And I painted it that way, didn't I?  
(how deliciously maudlin)  

But it's easier to say  
"You look wonderful tonight"  
than  
"You're wonderful tonight"  
right?  
Right.

And 10,000 other euphemisms for Americans (sex revolution or no One night stands so so-so)  

Fucking lonely.

American boys are only fucking lonely.

Here's what I find so attractive in you  
Honesty enough to laugh like you're joking  
when I ask for your number and you  
tell me your turn-ons, magazine style  
long walks on the beach yeah  
long island iced teas yeah whatever  
the gag's this:  
I'm a boy (You're a girl)  
And I wouldn't so much as consider touching the phone if I didn't fully intend to fuck you.

and we joke about kinks  
which leads naturally to ours  
and soon all the talk about sex is just my way of putting off falling in love with you.

Honesty, honestly how do you do it?  
"You look wonderful tonight"  
All right?
