OHS AND AHS

STEVE KAHAN
Hollis Hills, New York

A collection of alphabetically-arranged letter quartets are offered below, each of which admits a rearrangement that will yield a pair of five-letter words when an “A” and an “O” are inserted in the same location. For example, E L S V would yield S A L V E and S O L V E (or L A V E S and L O V E S) when the aforementioned letters are placed into the second positions of the targeted words. However, S L A V E and S O L V E would be deemed unacceptable because they are in violation of the “same location” criterion. See if you can manage to S C A R E up all twenty, thereby achieving a perfect S C O R E.

1. A D P T
2. A L L Y
3. B D O R
4. B L S W
5. B N O R
6. C D E Y
7. C D H R
8. C H I N
9. C H I R
10. C I R U
11. C K O R
12. D D E R
13. D I O V
14. E H L W
15. E I L V
16. E K N T
17. E P S S
18. G H T U
19. G I N R
20. I N P T
