Answers to USA quiz

1. Delaware was first to sign on but it didn't "join" any others as there were no others yet, so Pennsylvania was the first to *join*. But PA is a Commonwealth not a State, so the first *State* to join was New Jersey.
2. 50 States joined? Wrong! Only 45. Kentucky, Massachusetts, Pennsylvania and Virginia are Commonwealths in their official titles, not States. And Delaware didn't "join" (see 1).
3. either (N. or S.) Carolina < California (=2); Idaho < Rhode Island; Iowa < Washington; Maine < Minnesota; Utah < South Carolina or South Dakota (Let them fight over it.)
4. Maine < "any AMERlcaN state". (Maine + car = American)

Answer to EXHAUSTIPATED = Too "2" to "2" to. Too "too" to "too" to too. Anil provides this translation: Too "shit" (spent) to give a "shit" to. Also too "too much!" to echo and act on the situation.
